Clematis... the Queen of the Flowering Vines

Countess Bouchard. Just picture glistening pink, pointed flowers, just like these right in your own garden. A marvelous display from undemanding, hardy vines, growing 8-12 ft., completely covered with a wealth of color all summer. Strikingly effective for adding beauty to your porch, trellis, garden fence, wall or background for other flowers.

Strong No. 1 Vines Each \$1.75 2 for \$3.25 Postpaid.

Complete selection and description of Clematis on pages 3 and 17.

1963 SPRING
GARDEN GUIDE

Tree Peonies

*Exclusive Palace Treasures
Direct from the Orient*

The Tree Peony is the royal plant of the Orient grown only by Princes and Potentates for over 1400 years. Long the artists favorite subject and traditionally embroidered on the trousseau of princesses.

Huge flowers up to 8 inches on small trees. Imported direct from Japan.

Unlike other peonies they do not die back to the ground, but produce woody stems increasing each year to 4 or 5 feet, the giant petals crimped and glistening as if fashioned from oriental silk.

Extremely Hardy, Easy to Grow.

Despite their exotic loveliness, perfectly hardy to 20 below zero. Just plant in any well drained sunny location and they will thrive for generations, becoming lovelier and larger each year. *Postpaid.*

Your choice of Red, Pink, White.

Each 2 for

Strong 2 yr. No. 1 plants **\$2.95 \$5.75**

Rare "Temple Yellow" Tree Peony

(*Kinshi*) A precious yellow variety; until recently a collectors gem, costing much more. Imagine tremendous flowers aglow with sparkling yellow petals. Truly "captured sunshine". Order now as the demand exceeds the supply. *Postpaid.*

2 yr. plants.....**\$3.50 each; 2 for \$6.85**

Mikados Garden Group

1 Red 1 White 1 Pink

3 Selected Plants \$9.95 Postpaid

Chin-Cheer-In-Chees

(*Orinthogalium Thyrosides*) Popular star like flowers of South Africa that last 3 to 5 weeks in bouquets and bloom from summer till frost. Grow 6 to 18 inches tall, increase rapidly, and bulbs should be given winter care as gladiolus. *Postpaid.*

3 for 6 for 12 for
No. 1 bulbs.....**95c \$1.50 \$2.75**

Mystery Lily

(*Lycoris squamigera*) In spring, broad, strap-like leaves appear, ripen and completely disappear. About a month later, as if by magic, 2 ft. flower spikes pop up with 5 to 10 large pink trumpet flowers. Winter hardy, thriving everywhere. *Postpaid.*

3 for 6 for 12 for
No. 1 bulbs...**\$1.35 \$2.35 \$4.25**

Fairy Lily

(*Zephyranthes*) Perhaps the prettiest, easiest to grow bulbs for abundant summer blooming. Grows only 8 inches high and very desirable for indoor pots and planters. Bulbs increase rapidly, requiring same care as gladiolus. *Postpaid.*

10 for 20 for 100 for
No. 1 bulbs..**\$1.25 \$2.25 \$9.75**

Mexican Shell Flower

(*Tigridia*) Imagine a 2 ft. stalk in midsummer rising from short, sabre-like foliage completely covered with exotic, strikingly different blooms, as gayly colored as a dancer's shawl. Does best in full sun with over winter care as gladiolus. *Postpaid.*

6 for 12 for 50 for
No. 1 bulbs **\$1.00 \$1.65 \$5.75**

A Personal Message To Our Friends and Customers

In presenting to you, our good customers and friends, this 1963 Garden Guide, we wish to thank you for the generous patronage we have received.

No nursery is more conscious of its obligation to its customers to supply high quality nursery stock at reasonable prices.

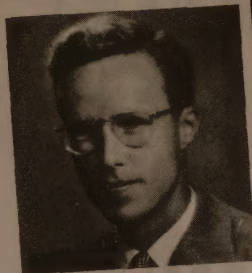

We utilize every facility to handle your orders in the most efficient manner, and consider no transaction completed unless the trees and plants give complete satisfaction.

The thousands of orders we receive each year, through the recommendations of satisfied customers, bespeaks the confidence placed in us, and we assure you of our intention to continue our fair policy that will warrant the continuance of your valued orders and recommendation to your friends.

We welcome your letters, and are always ready to supply you with the latest up-to-the-minute information on horticultural problems.

Sincerely,

William F. Kelly, Jr. President

About Our Nursery

famous for quality nursery stock for over 80 years

From a small beginning in 1880, we have grown to become one of the largest nurseries in the country, shipping millions of plants each year to all parts of the U. S. A. Perhaps the most important reason we can send such fine plants and give prompt, accurate service, is that the Kelly staff is made up of folks who are interested in growing plants. They take pride in their professional skill by scientifically growing good trees, and shipping your order at just the proper time for planting.

We only wish it were possible for us to meet all of our hundreds of thousands of customers in person and take you through our nursery—to show you how skillfully the plants are propagated and handled.

Ideal Location. Acres of rich soil and ideal climatic conditions of the fertile Genesee Valley in New York State make it possible to raise the finest nursery stock available. You are assured of built-in stamina and survival characteristics, enabling them to grow and thrive.

Method of Shipment. Strawberry Plants, Perennials and Supplies are shipped separate from nursery stock. It is not necessary for you to specify a shipping date. We will ship your order at the proper time for planting in your section. If, however, for some reason you wish to have your order shipped on a particular date, please carefully note this information on your order blank.

The Most Up-to-Date Developments in Buildings, Equipment and Methods. We have made large investments and are using machines and refrigerated buildings, especially designed for particular methods of propagation, planting, digging, grading and shipping. These advanced methods allow you the largest selection of plants, at prices made possible through our efficient production.

When your shipment arrives, if you can't plant it immediately, leave it in the bundle in a cool place just as it arrives until you can plant.

Our Interest Continues. We take great pains to deliver nursery stock in A-1 condition and our interest does not cease when you place your order with us. If you are ever dissatisfied, tell us. We are never satisfied until you are, and will gladly remedy whatever is not as it should be. Complete, easy to follow planting and growing instructions are sent with each order to insure excellent results with all trees and plants you purchase from us.

Your Visits Are Welcome. Those of our customers who are in driving distance of Dansville we would like to meet personally. We are open during the spring season, starting the middle of March, on Saturdays and Sundays. Visitors are welcome at any time.

How to order

Please read before ordering your selections

1. Order now for shipment at planting time.
2. We will send your order at the proper planting time in your locality. It is not necessary for you to specify a shipping date. If, however, for some reason you wish to have your order shipped on a particular date, please carefully note this information on your order blank.
3. An envelope and order blank are enclosed for your convenience.
4. For ordering, please use order blanks enclosed. Letters should be written separately to avoid confusion and mistakes, and to insure prompt reply.
5. Please do not ask us to ship C.O.D. The Post Office and Express Company make an extra charge for this service, which makes your costs greater.
6. If possible, please do not ask us to change your order. We want to accommodate our customers, but we ship thousands of orders within a very short period, and it is impractical to locate any particular order quickly during the shipping season.

How to Remit

The best way to send payment with your order is by personal check, Post Office or Express Money Order. Do not send stamps or currency unless registered. The Post Office and Express Company make extra charges for C. O. D. shipments.

Quantity Rates

Take advantage of our lower rates for Quantity Purchases of Fruit Trees. Where we offer a 3 for and a 10 for rate, they do not have to be of the same variety. We are one of the largest growers of Fruit Trees in the country. Commercial Fruit Growers are invited to send for our Quantity Fruit Tree Price List, or to submit their list of wants for special quotations.

Free Planting Guide

With every order we will send FREE a book which, by word or picture, shows just how to plant a tree or shrub.

Our References

As to our responsibility and reliability, we refer you to the Genesee Valley Union Trust Co., Dansville, N. Y.; Groveland State Bank, Groveland, N. Y.; Security Trust Co., Dansville, N. Y.; to any person whose letter appears in this catalog, or to your State Experiment Station or College.

We pay postage

Most plants listed in the catalog are delivered to your home postpaid. Trees too large for parcel post shipment are sent by express—you pay the charges.

Where there is a mixed order of postpaid and express items, we ship the whole order express, prepaying in advance, our portion of the charges.

Our Guarantee

(1) **WE GUARANTEE** delivery to customers in first-class condition of all nursery stock. If through delay or mishandling in transit, all is not in first-class condition on arrival, notify us immediately and we will make prompt, satisfactory adjustment, with a replacement or prompt refund of your remittance.

(2) **WE GUARANTEE** our nursery stock to be true-to-name. We strive to avoid mistakes, but should any stock prove untrue to name as sold, we agree to replace such stock or refund purchase price.

(3) **WE GUARANTEE** to deliver well grown trees and plants, which if properly handled and planted will grow. However, if, due to unfavorable weather such as drought, excess rainfall or other conditions over which we have no control, losses are experienced, we will replace at half price the following season. You to notify us not later than September 1, 1963 returning the original order form, together with your remittance of one half the purchase price.

We are members of

**American Association of Nurserymen
New York State Nurserymen's Association
National Mail Order Nurserymen's Assn.**

Everblooming Rose

FREE GIFTS FOR EARLY ORDERS

Double Mock Orange

Postpaid

Colorful CARDINAL Shrub

Cardinal Shrub, *Weigela Vaniceki*. A new shrub, fast becoming the most widely planted in America. It is literally covered from top to bottom with hundreds of lovely color-fast cardinal-red flowers. Each blossom is trumpet-shaped, 1 to 1½ inches across, and they bloom from May to June. During the balance of the season there are scattered blossoms that show like glowing sparks against the deep green foliage. To make more bloom for summer and fall, cut sprays for bouquets while in full bloom in spring, as each branch clipped will bloom more freely in summer and fall. Extremely easy to grow, and thrives at every point of the compass. Lives happily in full sun or partial shade. The excellent foliage makes a shapely, graceful bush approximately 6 feet tall. One of the best hardy new shrubs, it has withstood 15 below zero cold without injury. Easy growing, quick starting and if planted this spring, it will surely bloom this season. *Postpaid.*

Firethorn-Pyracantha

Cardinal Shrub

Pyracantha FIRETHORN

Beautiful green
the year 'round

Super Hardy

Blazing Berries

Ideal for
any location

Brightens
bare places

Firethorn, *Pyracantha Coccinea Lalandi*, is a remarkable berried shrub that retains its foliage all winter. Attractive long trusses of pure white flowers in May are only a prelude to the big show. An abundance of brilliant orange-scarlet berries follow the bloom and the bush becomes a "mound of flame" with the effect lasting well into winter; wonderful for Christmas decorations. Occasional trimming produces a glorious 4-6 ft. shrub, even more beautiful when long shoots are used as a vine over doorways, against walls and around windows. Very tolerant of dry soil and loves sun; ideal for foundation plantings. Plant now and thrill as bare spots burst into masses of vivid color. *Postpaid.*

	<i>Each</i>	<i>2 for</i>

Sonjana Amazing Climbing Strawberry

Unbelievable but true. A real strawberry that climbs! Imagine crop after crop of easy to pick firm, glossy-red, richly flavored berries right before your eyes. You'll thrill to the superb decorative effect. Clusters of deep green foliage, white flowers and luscious red fruit all at the same time, adding that touch of charm and beauty to your home. Sonjana is the ideal ornamental that climbs trellises, fences and walls. Perfect for compact patios or the smallest gardens since it requires a space no larger than a pillow. Don't fail to grow these completely new plants that are shipped at just the proper planting time, with complete easy to follow directions. *Postpaid.*

Established plants....9 for \$6.95 18 for \$13.50

Flowering Strathmore Crab Tree

New type "Pyramidal Flowering Crab"

Glorious in Bloom . . . Handsome Foliage. Prepare for a wave of excitement when you plant these spire-like specimen trees. Never before has there been a Flowering Crab like it. In early spring masses of rosy-pink blossoms literally cover the tree, creating your own one tree flower show. When not in bloom, the naturally ascending branches are covered with large beautiful reddish-bronze foliage that in the fall turns to shades of brilliant orange and scarlet, accented with hundreds of miniature apples hanging like pendant jewels.

Showy Specimens. Living Walls of Color. Strathmore grows 10-15 ft. tall in a slim symmetrical column tapering to a point at the top. These trees with straight, stately form and natural symmetry may be planted 3-5 ft. apart forming living walls of blossoms to screen undesirable areas with new found beauty.

Hardy even in Coldest Sections. Strathmore is rugged and grows like wildfire even in poor soils, full sun or partial shade withstanding the coldest, severest winter as frigid as 20 below zero, blossoming with lavish abundance. The perfect tree for all uses, sure to bring you immense satisfaction, over an entire lifetime. *Postpaid.*

New Shademaster Locust Pl. Pat. 1515

The name "Shademaster" is perfect for this new Thornless Honeylocust of superior qualities. Lovely dark green, fern-like leaves let the sunlight filter through in dancing shadows of restful shade, without unsightly seed pods or raking in the fall. Grass thrives right up to the straight, smooth, thornless trunk. Ascending branches form unbelievably symmetrical top, different from other Honeylocusts. The answer for those who want shade in a short time, often growing 5 feet a year, quickly reaching maturity of 25 to 40 feet. Perfectly hardy, deep rooted, free from disease and insect pests.

Kelly's Spectacular Blue Spruce

Without question the most magnificent lawn specimen. The tree everyone longs for. Kelly's Blue Spruce are the finest produced anywhere with wonderful color harmony of silvery-blue-green. Perfection in symmetry. Graceful branches cascade in even layers from a tapering crown to a broad base. Every year it becomes more compact, beautiful and colorful. It is the landscape favorite with the hardiness of the Rocky Mountains, from whence it originated. Ideally used as a single specimen or groups reaching a height of 40-60 ft. at maturity. The evergreen that combines complete hardiness with unmatched charm and beauty. *Postpaid.*

Improved New Variety
Plant Pat. No. 2011

If any one single plant can transform an ordinary garden into a showplace of beauty—this is the plant. Enormous double flowers, fully eight inches across of an exquisite shade of American Beauty Red. One of the very first Peonies, whose beauty of bloom and perfect coloring is protected by a U.S. Patent.

There's never enough of a new introduction to go around, so don't miss out growing this spectacular new variety. Plant 3 ft. apart in sun or partial shade for "lifetime beauty." *Postpaid.*

Beautify your yard...

Christmas Holly—Ilex Opaca

By far the most famous of the Holly family, the American Holly, was once commonly found in all wooded areas of the East. Either by cutting, burning or from attacks of bugs and disease, it has all but disappeared. By scientific breeding, Holly experts have succeeded in propagating varieties that are *heavy fruiting, comparatively free from disease and hardy to 20 degrees below zero*. We now are fortunate to have a quantity of these unusual plants which we are offering.

The trees do better when they are protected from strong winter winds in a shaded place preferring a fertile, well drained, acid soil. A special Holly fertilizer is listed below. Will grow to 30-40 feet at maturity, if not trimmed, but are more pleasing when you trim your own Christmas decorations, creating a compact size of 4 to 8 feet.

Evergreen the year around, but better during the winter months when the abundant scarlet berries sparkle like rubies, midst the lustrous green leaves. Invaluable as specimens or accents in strategic corners near the house, walks or front entrances. Because the male and female flowers are produced on separate plants, *at least two plants must be planted*. Since 1 male will pollinate from 1 to 10 plants, we offer a combination of 2 female and 1 male plant in one package. Special Holly Culture Booklet sent free with each order. *Postpaid*.

All 3, 9-15 in., 3-yr. plants, only \$5.95

Forsythia, Lynwood Gold

This splendid new Forsythia originated in Ireland, and we predict it will replace, before many years, all other varieties of deep yellow color. The branches are erect and literally smothered under golden yellow flowers from top to bottom. For a magnificent show of golden yellow, there is nothing better. It is superb for cutting and flowering in the house during the winter months. It has been carefully tested for several years, and we recommend it without hesitation. Ultimate height 5 to 7 feet, depending on conditions. *Postpaid.*

Dawn Redwood

Metasequoia Glyptostroboidea

A Most Unusual Tree, recently introduced in America. Fossils from Elko, Nevada, show that this tree existed in North America a great many years ago. In 1941 a Japanese paleobotanist described *Metasequoia* from fossil specimens at a time when the tree was believed to be extinct. Three years later, several large specimens were discovered growing in a remote village in Central China. Shortly after this discovery Dr. E. D. Merrill of the Arnold Arboretum, Harvard University, contacted Dr. W. C. Cheng, a Chinese Forester at Nanking and arranged for seeds to be sent to him for propagation.

The plants vary greatly in their growth, some attaining as much as 4 feet of growth in one summer. A ten-year old specimen in Northampton, Mass., is already 35 feet tall. This tree grows in open or half shaded locations, but seems to thrive best when planted along streams or close to abundant water supply. It is hardy throughout the country, and appears to have no special soil preference. The foliage is deciduous, bright apple-green, and about one-half inch long. It is a cone-bearing tree, resembling the Bald Cypress of the southern swamps. More or less pyramidal in shape. Not an evergreen. A valuable new introduction. *Postpaid.*

Deutzia, Pink Pom Pom

A beautiful strong growing hybrid which came to us a few years ago from Ireland. In late May, many graceful stems rising directly from the root, arching outward and upward, are covered with a veritable blanket of fully double, shell pink flowers that last and last. Pink Pom Pom will not grow over three feet tall and is well adapted for small gardens, walkways, foreground of the shrub border or most anywhere a small shrub is suitable. Hardy, of very easy culture, doing best in a sunnyspot or light shade. *Postpaid*.

Fragrant Lilacs

Fragrant, Large Clustered Blossoms. No wonder Lilacs remain an American favorite. Time has enhanced the fragrance and beauty of this delicate looking old-time favorite. They are hardy and vigorous in any soil or climate, growing to a scene-stealing height of 6 to 8 feet. Large, fragrant clusters open for Decoration Day—greeting the long summer still ahead. Deliciously fragrant, fragile beauties. We offer them to you in jewel-tones of amethyst-purple or creamy pearl-white. *Postpaid.*

Pink Cascade Tamarix

Tamarix—Pink Cascade Pat. No. 1275. Any picture can't do justice to the subtle beauty and charm of Pink Cascade. The delicate silvery-blue foliage flows like a cascading veil, interlaced with lovely pink blossoms that mimic the Morning Glory to perfection. This shrub will thrive everywhere and is excellent for seashore or lakeside plantings, being tolerant to salt air and wind. Your Pink Cascade will grow to about 8 ft. but may be kept pruned to 5 or 6 feet if desired. Plants should be cut back to 6 inches when first planted. *Postpaid.*

Large Colorful Shrubs

Red Flowering Honeysuckle

(*Lonicera zabeli*) A Shapely Bush—Fine Foliage. A marvelous accent or specimen shrub. If you want a stunning flowering hedge at 4 to 5 feet, this is it. Sturdy, upright growth; attractive blue-green leaves; profuse red flowers in spring and long lasting red berries late summer and fall. If you wish to keep it thick and formally trimmed, plant 1½ ft. apart, but for its informal beauty, plant 3 ft. apart. *Postpaid.*

New Forsythia, Beatrix Farrand

A Masterpiece of Loveliness. A new Forsythia originated at the Arnold Arboretum in Boston, by Dr. Karl Sax, and named in honor of Mrs. Beatrix Farrand, one of America's foremost women landscape gardeners and until recently landscape consultant for the Arnold Arboretum.

It is a vigorous grower and makes a large symmetrical bush. The deep golden yellow flowers with orange markings in the throat are over 2 inches in diameter. This variety is a hybrid between Arnold Giant, a tetraploid variety and a diploid species. *Postpaid.*

The Feathery Tamarix, Summer Glow

There is a lacy loveliness and charm about this shrub not found in others. Beautiful silvery blue-gray foliage is like a veil. A sharp and delightful contrast is made by the airy Tyrian rose flower spikes appearing on top of the delightful foliage all summer. Lovely for cutting. Very tolerant to salt and wind. Ultimate height about 8 feet. Can be pruned and kept to 5 to 6 feet if desired. *Postpaid.*

Spiraea Van Houttei

The All-American National Favorite. "A thing of beauty is a joy forever" . . . the purest white flowers completely cover the graceful arching branches in May, transforming this green shrub into a lovely, mobile white waterfall. Graceful and fragile looking, but actually extremely sturdy. This popular Spiraea, which develops into a 6-foot or more shrub, will tolerate shade and city conditions, in any soil. Perfect for specimen planting or for a hedge. It will increase in beauty each successive season. Should be included in all plantings. *Postpaid.*

Pepper Bush

Clethra Alnifolia Rosea. Finger-like clusters of small, deliciously scented pink flowers—vaguely—reminiscent of old spice. A compact, neat plant of dozens of slender upright branches growing 4 to 5 feet tall. Here is the rare luscious pink form of the much loved white Pepper Bush, giving bloom when most needed to bestir the gloom, in late summer and early autumn. Leaves are shining deep green, 2-3 inches long, and resemble the Alder with their toothed sides. A truly fine, useful shrub, especially good for those low moist garden spots most nearly approximating a damp woodland condition. Will give you beauty in deep shade or the brightest sun. *Postpaid.*

Hypericum Hidcote

This Beautiful Hardy Shrub was Originated Several Years Ago in the Famous Hidcote Estate of England. It was brought to this country five years ago and is proving more popular every year. In the temperate parts of this country from Washington south, it reaches a height of 4 to 5 feet and is practically evergreen. In colder parts it may freeze to ground but it springs up again from the base in the spring, reaching 2 to 3 feet. The bright yellow flowers, 2 to 3 inches in diameter, are produced in profusion during the spring months and again during the summer. Planted 18 inches apart it will make a compact, attractive flowering hedge.

This beautiful shrub deserves a prominent place in every garden where continuity of flowers is wanted. *Postpaid.*

Dwarf Pear Tree

Dwarf Apple Tree

Yellow Delicious Apple

Kelly's Dwarf Fruit Trees

Plant your garden with "Dwarfs"—It's novel, fruitful and profitable!

Espaliered or grown free, you receive beauty and full size fruit from little ground space. Pluck one of these delicious fruit from your own tree—take a big bite into its tender meat—u-m-m-m wonderful . . . And so easy to grow, with fruit so easy to reach. Just plant in any good garden soil 15 to 20 feet apart. Your trees

will reach full maturity at only fifteen feet and start bearing by the bushel within two years after planting. These trees bear so early we have seen them fruit right in the nursery row . . . For greater yields, it is best to plant at least two varieties. The cross pollination of the blossoms will insure a good set of fruit.

Dwarf Apples

These Dwarf Type Trees are meeting favor with owners of ranch, bungalow, and two-story homes, especially when garden space is limited.

Besides providing graceful flowers and fruit for the family, "Dwarfs" are an asset as an ornamental tree.

Your Choice of Varieties

Early McIntosh. Resembles its McIntosh parent; attractive red color with white flesh. **Cortland.** Large, round in shape, of bright red color splashed with carmine. **Double Red Delicious.** Large, solid red with a delicious flavor. Crisp and fine-grained flesh. **Northern Spy.** Attractive bright red color, large size; flesh is crisp and tart. **Red McIntosh.** One of America's favorites. Bright red in color with snow-white flesh. **Yellow Delicious.** The most popular yellow Apple. Fruit is large and juicy with fine flavor. *Postpaid.*

Kelly's Easy to Grow Giant Hybrid Blueberries

Make fine decorative shrubs in your garden

- *Imagine your own delicious Blueberry Pies.*
- *Berries up to 2 inches around. A treat to eat right from the bush.*
- *Serve them with cream and thrill to the taste of these large juicy blueberries.*
- *Beauty all year long. Thrive despite winter cold or summer heat.*
- *Every plant guaranteed to live and bear.*

During July and August every bush is loaded with huge grape-like clusters of sapphire blue berries, waiting to thrill you with your first home-grown blueberry pies, blueberries in cream and preserves. Kelly's blueberry bushes are amazingly hardy, easy to grow and as beautiful as they are productive. The shining waxed-like foliage glistens in the summer sun and as fall approaches, gradually change color and the entire bush becomes a mound of crimson, blazing beauty. Plant hedges of these sturdy bushes for a gorgeous display, and blueberries year after year. Kelly's scientifically grown plants usually bear within the first year after planting and last a lifetime, producing an ever increasing amount of flavorsome fruit.

Earliblue

The best of 1297 from the N.J. Agr. Exp. Sta. Earliest generous bearer of large, full flavored, light-blue berries. Acclaimed everywhere as the finest. Hardy, vigorous.

Coville

A new variety named for the late Dr. Coville. A vigorous bush growing to 6 ft. literally loaded with beautiful large clusters of light blue, firm, juicy fruit way late into August. Highly prized in commercial and home plantings.

Jersey

Vigorous, hardy bush that grows erect up to 6 or 7 ft. with delightful foliage. Produces very large, light blue berries that ship well. A fast growing, good commercial variety. Attractive and very ornamental with large leaves.

Pemberton

Considered the most vigorous of all. A very fast grower producing so abundantly that each bush is a fruit garden in itself. Berries are large, glossy and firm, of excellent quality for unsurpassed eating enjoyment.

Concord

Amazingly hardy, tall upright bush that produces ever increasing crops of high quality, extra large berries, as large as marbles, borne in clusters resembling Concord grapes. A beauty you will grow with pride and pleasure.

Commercial Growers: Ask for our fruit growers price list showing quantity rates and complete list of varieties available.

Planting Information. Standard Apple Trees will start bearing fruit two to three years after planting, depending on the variety and the care the trees receive. Trees may be planted as close as 30 feet apart in which case 45 trees can be planted to the acre.

Pollination. For better crops, it is best to plant at least two varieties of Apples. This will result in cross-pollination of the blossoms of the two different varieties and result in a good set of fruit.

SUMMER APPLES

Early McIntosh. For home orchard or commercial use this is the ideal early variety to plant. Resembles its McIntosh parent with its handsome red color and uniform, round shape. The tree is a vigorous grower, hardy and productive. Tends to be a biennial bearer, although for annual crops early thinning is recommended. It comes into bearing at an early age. The flesh is white, tender and juicy with fine flavor.

Wealthy. Beautiful, moderate sized, brilliant red Apple; fine quality. Owing to hardiness of the tree, its adaptability to cold climates and early bearing habits, can be profitably planted as a filler.

WINTER APPLES

Double Red Delicious. A large, dark red Apple, with crisp, fine-grained flesh of excellent quality and flavor; splendid keeper and shipper. Tree one of the hardiest. A regular annual bearer. Excellent for eating and the most popular fruit stand Apple.

Macoun. A late McIntosh type Apple ripening about 10 days later than McIntosh. Dark red with whitish, close-grained flesh. Fine quality. A heavy and regular bearer. Introduced and recommended by N. Y. Experiment Station.

Northern Spy. Easily ranks among the very best winter Apples. Fruit is large, very attractive, being of bright red color with a pronounced bloom. Flesh is juicy, crisp and excellent for dessert or culinary purposes. Keeps well in storage until April or later.

Red McIntosh (Rogers Solid Red Strain.) Without doubt the leading commercial variety of New York and the New England States. A very attractive red Apple of the highest quality. Hardy, bears young and annually. Flesh white, fine, very tender, juicy and refreshing, with attractive flavor.

Red Rome. Red sport of Rome Beauty, and like Gallia Beauty is identical with its parent in all characteristics except fruit is a solid red color.

Rhode Island Greening. As a cooking Apple it is unsurpassed, and as a dessert fruit of its season, has few equals. It is a good keeper but keeps better if picked early. This Greening is a beautiful yellow color when ripe and an abundant yielder.

Yellow Delicious. A bright, golden yellow Apple of excellent quality. Firm, crisp, and very juicy. Splendid keeper. Bears young and heavily.

Quality Pears

DYMOND (Pl. Pat. 1806)

Perhaps at last the perfect pear, a combination of the best qualities of other varieties. From large white blossoms in early May to mature fruit in early September, Dymond is the Pear Supreme. Extra large, superbly flavored pears with a scarlet blush invite you to reach out and enjoy new found goodness. Dymond stands straight, is resistant to disease, self pollinizing, and can be depended upon for bountiful crops of "gift packaging" fruit year after year. A distinct new variety, is vigorous, hardy, productive, well formed and outstanding in every regard. Surely no home or orchard is complete without a planting of this excellent variety.

Each 2 for
2 yr. 4-5 ft. trees..... \$3.25 \$5.95

CLAPP'S FAVORITE. Large yellow full bodied favorite that thrives where other varieties fail. The fruit resembles Bartlett in size and shape, ripening in mid-August, hanging like golden pendants, inviting you to reach out and bite into the superbly flavored, fine textured, white, juicy, melting goodness. The trees grow strong and sturdy, producing an abundance of super-delicious fruit every year.

BEURRE BOSCH. Kelly's has recommended this variety for years. A Pear which is rated by all as "very good" or "best." Has a long, tapering neck and a long stem which allows it to sway in heavy winds without dropping. Brownish yellow in color. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. The tree is a slow grower, but most productive. *Bosc* is a very delicious eating pear.

SECKEL. The Pear to plant for eating fresh and pickling. Medium size, skin rich yellowish brown with deep brownish red cheek when fully ripe. Flesh very fine grained, juicy, sweet and good. Trees resistant to blight, very productive and hardy. Should be planted in fertile soils, not heavy clay.

Pollination. For a better crop, it is best to plant at least two varieties of Pears. This will result in cross-pollination of the blossoms of the two different varieties and result in a good set of fruit. Where Bartlett and Seckel are planted, a third variety is needed as Bartlett and Seckel will not pollinate each other.

Clapp's Favorite

4-on-1 Pear

Imagine the thrill of having a whole orchard right at your doorstep, and picking FOUR different kinds of Pears from just one tree. In the spring your tree is a thing of rare beauty, smothered with fragrant blossoms and in August you will start to harvest big, juicy, luscious home grown pears, and you will continue to pick fresh, home grown fruit as each succeeding variety ripens, way into the fall. Be among the first to enjoy these 4-on-1 trees that require so little space, bringing you full size Bartlett, Clapp's Favorite, Beurre Bosc and Seckel pears all on the one tree. *Postpaid.*

4-6 ft. tree\$3.50

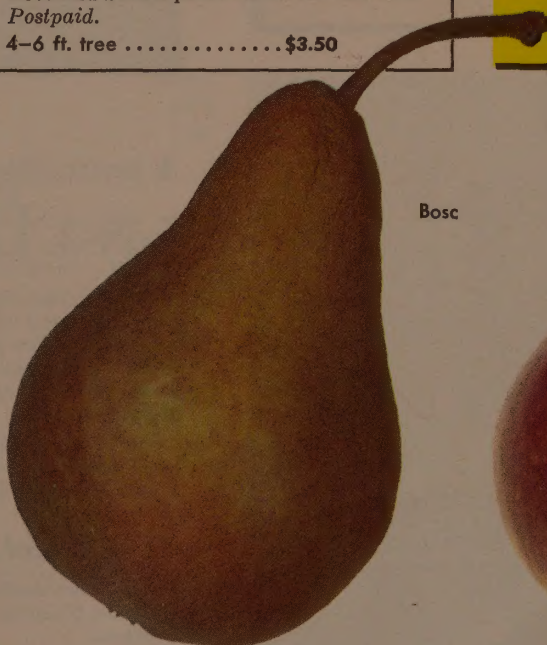

BARTLETT. America's favorite for size and taste. There's hardly a person that doesn't know the Bartlett Pear and its qualities, as it is grown in, and is adaptable to all different climates, soils and situations. Fruit is large, golden yellow in color with a reddish blush on the sunny side. Flesh is tender and juicy, with a delicious musky aroma. Trees are vigorous, attain large size, bear young, live long, and barring frosts or freezes, they bear full crops year after year. Justly the leading commercial Pear—a leader among canning Pears.

*Healthy, Heavy Bearing
Trees, Easy to Grow*

Cherries

Windsor Sweet Black Oxheart

One of the best quality dark Cherries, often referred to as Black Oxheart. Has pinkish flesh and almost black skin. Large, juicy and firm. Delicious to eat fresh, and wonderful for canning. Used extensively for fancy preserving. Tree grows upright and is a rapid and vigorous grower. A good commercial variety. Ripening date July 20-26.

The Great Napoleon—Sweet (Royal Ann)

Choice Sweet Cherry. Good for market and canning. Large size, beautiful Cherry, pale yellow with bright red cheek; sweet, juicy and firm. The leading pink cheeked Sweet Cherry. Ripens July 7th to 10th.

Emperor Francis

King of All Sweet Cherries. Recognized as one of the newer leading Sweet Cherries for home and commercial orchards. This high quality Cherry resembles Napoleon in size and color except that it becomes a little darker. Ripens around July 4th. Sold at same prices as regular varieties.

Schmidt's Bigarreau

A midseason black Sweet Cherry. **Considered one of the best large varieties of its season.** Delicious to eat fresh and canned, and very attractive. Fruit grows in clusters. Keeps well and is an excellent shipper. In size it is usually unsurpassed by any black Cherry in the East. Ripens about July 10.

Black Tartarian

Well known and Popular sweet Cherry; very large, bright purplish black, juicy, and has a rich flavor. Excellent for canning and a good shipper. Trees are remarkably vigorous and erect growers, produce immense crops. Ripening date June 20-July 4.

Montmorency—The Leading Sour Cherry

"Best Pie Cherry." Fruit is good size, fine flavor, bright clear red. The canning factories are always calling for them and buy them by the hundreds of tons. The best of all sour varieties; is a good shipper, very attractive and always brings good prices. Fruit ripens early to mid-July. It is self-fertile.

	Each	3 for	10 for
Sour Cherry Tree 2-yr., 5-6 ft.....	\$2.50	\$7.20	\$22.50
Prices 2-yr., 4-5 ft.....	2.25	6.45	19.95
2-yr., 3-4 ft.....	1.95	5.45	17.45

Planting Information:

Sour Cherries will begin to bear fruit the second or third year after planting. The trees may be planted as close as 20 feet apart, and if planted 20 x 20 would require 100 trees to the acre. Sweet Cherry trees will start to bear the third or fourth year after planting. These may be planted as close as 25 feet apart and if planted 25 x 25 would require 60 trees to the acre.

Pollination of Cherries:

Sweet Cherries are self-unfruitful, so must be interplanted. Where Napoleon and Emperor Francis are to be planted together, another variety, such as Windsor or Black Tartarian must be added, as the first two will not pollinate each other. The Sour varieties are self-fruitful, Sour Cherries will not pollinate Sweet Cherries, and vice-versa.

Commercial Growers:

Please ask for our fruit growers' price list showing quantity rates and complete list of varieties available.

RHUBARB

Valentine. Newest and best of the red Rhubarbs. It is sweetest of all, requiring the least sugar. Makes delicious pies and bright red sauce. Excellent for home use and freezing. Out of 25 varieties tested in Canada. "Valentine rated highest. Color was an even bright red; texture smooth and tender. Flavor pleasing with a slightly tart after-taste." *Postpaid.*

\$1.00 each; 2 for \$1.85; 6 for \$4.85

Canada Red. The reddest of all Rhubarbs. Has large, tender, juicy stalks that are rich red all the way to the heart and even to the midribs in the leaves. Skin so tender you need not peel it. Just cut in small chunks and cook. Do not remove the tender skin; it cooks right up with the stalk. Flavor is mild and pleasing. This new Rhubarb never becomes tough or stringy. *Postpaid.*

\$1.00 each; 2 for \$1.85; 6 for \$4.85

FAMOUS ORANGE QUINCE

For Delicious Jelly. Its pre-eminence as a fruit for jellies and preserves makes Quince a profitable tree for the fruit grower, the farmer or anyone having a small garden. The Quince tree does not take much room on account of its dwarfish character. It can be grown in bush or tree form. Fruit is large golden yellow and of excellent quality. Ripens early in September. Grows 10 to 15 feet tall. Produces abundantly. *Postpaid.*

Stanley

Superior

Shiro

The golden yellow winner everyone loves to see and eat. Low growing, hardy tree that bears immense crops every year of exceptional high quality, tender, juicy and very sweet golden yellow fruits. Attractive

enough to plant anywhere and for canning, for cooking, for desserts and just tasty goodness, Shiro is in a class by itself. People who like plums should be sure to plant this variety. Ripens August 8-15.

Plum and Prune Trees

Superior Plum

A freestone, sweet, juicy, yellow flesh covered with wine-red skin. Trees bear early and yield big crops of extra large Plums. A hardy variety, recommended for northern and western states. Plant 2 trees for best results, or if planted singly is a good pollinizer for other Plums. Ripens early in August.

Bradshaw

A very large and fine early Plum. Attractive, dark violet skin with yellow flesh. Very juicy: excellent for dessert use and for canning. The tree is hardy, and a vigorous grower. Desirable because of its ability to produce heavy crops of delicious fruit annually. Bradshaw is recommended for the home orchard as well as for the commercial grower. Ripens September 5-10.

Santa Rosa

A Deluxe Plum of Great Size. A very promising Oriental variety. Fruit is handsome, dark reddish purple. Large with very juicy, red flesh of good quality. Tree is large, vigorous and moderately productive. Ripens August 20-26.

Santa Rosa

Stanley

A Better Kelly Prune. Exceptionally productive variety introduced at N. Y. State Experiment Station. Considered best for home use and commercial planting. Bears fruit in just 3 years and ripens 10 days earlier than other varieties. Large, deep bluish-purple fruit, firm and sweet of excellent flavor. A superior profitable variety in every respect.

Damson

Fruit is medium size, dark purple, produced in thick clusters. Good to eat out of hand when fully ripe or after a light frost. One of the best of its kind for culinary purposes. Tree a good grower and very productive. Ripens September 24-28.

Burbank

Fruit very large, bright reddish purple. Meaty and quite firm. Should be picked before entirely ripe. Best colored fruit attained when thinned on the trees. Trees are low growing, flat-topped with somewhat drooping branches. Productive and vigorous. Good shipper. Ripens Aug. 25-30.

Burbank

COMMERCIAL GROWERS: Please ask for our FRUIT GROWERS' PRICE LIST showing QUANTITY RATES and COMPLETE LIST of varieties available. See Page 40 for the New "Howards Miracle" Plum

Fellemborg Prune

Also known as *Italian* and *German*. Widely known and valuable Plum for dessert, but most esteemed for market and drying for preserves. Fruit is long, oval, purple with a thick bloom. Flesh firm, sweet and pleasant, separating freely from stone. Moderate growth. A great favorite and there is always a good market for them at profitable prices. Ripens Sept. 24-26.

Reine Claude

Has a beautiful fruit, large, pale yellow, marked with red if the crop is thinned and sufficiently exposed to the sun. Trees attain only moderate size in the orchard, are productive and bear regularly. Deserves a place in the home orchard. Ripens September 25-30.

Pollination. With the exception of the Prunes: Fellemborg, German, Stanley, etc., which are self-fruitful, Plums should be interplanted to insure a set of fruit—European varieties for pollinating that class and Oriental sorts for those varieties. **Burbank, Shiro** and **Santa Rosa** are Oriental varieties, balance are European varieties.

Planting Information. Plum and Prune trees will start to bear the second or third year after planting, depending on the care they receive and the growth that they make. Trees may be planted 20 feet apart, in which case 108 trees will be required per acre.

Kelly's Peach Trees

The fastest growing of all fruit trees

Mouth watering peaches are produced in abundance from scientifically grown trees that often start bearing the first year after planting. Not only fruitful, but a beautiful addition to your landscape, covered with an abundance of blossoms that shimmer and dance in the slightest breeze. Don't be without the beauty of blossoms plus the flavor and convenience of fresh fruit from these outstanding trees.

Hale Haven

Kelly's Red Haven

A new, early Peach. Introduced by the South Haven Experiment Station, it has the fine flavor of the South Haven and the Hale-Haven. When other early Peaches are still green, this Peach is a bright red and ready to ship before it is fully ripe. Hardy. Freestone. Self pollinizing and a prolific yielder. Ripens August 20-25.

Commercial Growers: Please ask for our FRUIT GROWERS PRICE LIST showing quantity rates and complete list of varieties available.

Planting Information. Peach Trees are fast growers and fruit can be expected the second or third year after planting. It is not unusual to have fruit the first year after planting. Normal planting distance is 20 feet apart. If this distance is followed, 108 trees may be planted per acre.

Pollination. All our peach trees are self fruitful with the exception of J. H. Hale which may be pollinized with any other variety.

Belle of Georgia

Large, attractive, white-fleshed Peach. Red cheek. Hardy, productive and freestone. Ripens September 3-7.

Blake

A firm, bright, yellow-fleshed freestone of good quality. Has long harvesting season, starting about one week before Elberta, and continuing well into the Elberta season. Fruit hangs to the tree after it becomes highly colored.

Fairhaven

Early midseason, ripening after Golden Jubilee about 3 weeks before Elberta. Flesh yellow, free. Good for freezing and canning. A promising variety.

Fowler (Pl. Pat. 567)

This Peach was developed by Mr. George R. Fowler of Marlboro, N. Y. It is a large, yellow Peach of the Elberta type, very hardy. Tree of vigorous growth and exceptionally disease-resistant. Fruit matures a week later than Elberta, ripening evenly. Firm, thick-skinned, excellent shipper. Fine flavor and practically fuzzless.

J. H. Hale

An extra large freestone. Flesh golden yellow, of delicious flavor. A fine commercial variety. This is the only variety we offer that must be cross-pollinized with some other variety. Any variety we

offer is suitable for planting with Hale. Ripens September 17-21.

Kelly's Elberta A National Favorite

Leader of all Peaches and the greatest commercial variety on the market. A beautiful Peach of good quality; not only the best orchard variety but also for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. It is large, yellow with red cheek, juicy, high flavor. Flesh yellow; freestone. Ripens September 15-20.

Kelly's Golden Jubilee

The Sensational Peach, Excellent Canner

We recommend this New Jersey Experiment Station introduction. It's a real money maker. Quite hardy. Sure cropper, after severe winters and heavy frosts. **Golden Jubilee** is without equal as an early, large yellow freestone of highest quality. Flesh is yellow, tender, juicy and sweet. Ripens August 20-25.

Kelly's Hale-Haven

A marvelous Peach, result of crossing the Famous J. H. Hale with South Haven. A large, beautifully colored, yellow-fleshed Peach. Ripens approximately 10 days to 2 weeks ahead of Elberta. Perfect freestone; strong grower. Good shipper; prolific, heavy bearer. Tree hardy, fruit of highest quality. Ripen September 1-5.

Kelly's Raspberries

Guaranteed to Grow and Bear

Our dependable Raspberries are fully developed with strong fibrous roots. Besides being decorative, they are easy to grow, and within a year you will be enjoying quality fruit picked fresh from your own garden.

September (Everbearing)

Now you can plant a Raspberry that will produce an abundant crop in June and a crop of equal size in September. Fruit comes earlier and is larger, and of better quality than any other Raspberry.

Developed and introduced by Prof. George L. Slate of the New York State Experiment Station. This station has long been known for leadership in developing new and successful fruits.

Ripens 2 to 4 weeks ahead of other varieties in the fall. The berries are firm and don't crumble.

HOME BERRY PATCH COLLECTION

- 5 Sodus (Purple)
- 5 September (Red)
- 5 Bristol (Black)

All 15, A No. 1 Plants

\$2.95 Postpaid

Durham (Everbearing)

This is a new Red Raspberry that bears the usual crop in early summer on the old canes. Then in just a few weeks the new canes start bearing, and continue for weeks until freezing. The fruit is not as large as September. Bright red color, good quality. Excellent for eating fresh, pies, jam or freezing. Heavy producer. Hardest of all red everbearers.

Latham 10 Choice Plants, \$2.75

A Great Commercial Berry. The leading Red Raspberry in all parts of the country. Latham is free from insects and diseases and multiplies rapidly. Berries are large, plump, juicy, free from seediness and full of delicious flavor. Very hardy; cold weather seems to have no effect on its bearing ability. Ripens July 1-10.

Planting Information

In a home fruit garden, all Raspberries—Black, Red or Purple, and Blackberries can be planted 3 to 4 feet apart in the rows and the rows 4 to 6 feet apart. Plants will bear fruit the first or second year after planting. If planted 3 feet apart in the rows and the rows spaced 6 feet, 2400 plants can be set per acre.

Milton

A late variety for home and market use. The berries are large, attractive bright red, firm, not crumbling, mild sub-acid and good. They ripen two or three days later than Latham. The plants are vigorous, productive, hardy and have remained free from mosaic.

Amber Raspberry

Introduced by the New York Experiment Station. We have now built up stock sufficient to offer this new variety in quantity.

Its beautiful amber color has novelty appeal in the fruit markets and roadside stands. Ripens mid-July, extends the season for home-grown Raspberries.

The berries are as large as any other Raspberry, not crumbly, flavor is sweet and quality of the best.

Kelly's heavy bearing Bush Berries

Black Raspberries

Bristol

Large, firm, great big beautiful, glossy black raspberries that make you hungry just to look at them. When you eat them you'll agree the luscious flavor is simply grand, sweet, juicy and delicious. Plants are strong, healthy and hardy vigorous growers, so plant 4 ft. apart. Just a few plants will richly reward you, but we know you'll want more.

Sodus (purple)

Another triumph for the New York State Experiment Station who created this outstanding plant. Handsome purple color and considered the heaviest yielding variety with firm fruit that does not crumble. Hardy, strong plants produce few briars and the finest fruit for freezing, jam and eating fresh. Plant Sodus this spring and help yourself to unexcelled eating enjoyment.

Purple Autumn

The First Everbearing Purple Raspberry. Imagine your own fresh picked purple raspberries all season long. . . From summer till snow flies—all the berries you'll want for luscious pies, short-cakes, jams and jellies. Thanks to the Illinois Agricultural Experiment Station, comes the first everbearing purple raspberry, created by crossing Bristol and Indian Summer. Purple Autumn starts to bear in early summer on vigorous, stocky plants with large, smooth attractive leaves, cuddling the exceptionally large individual berries, high in flavor, free from crumbling and easily picked, separating readily from the receptacle. Purple Autumn is free from disease, hardy and produces basket after basket of exhibition fruit, the finest you've ever tasted. *Postpaid.*

5 for \$2.45; 10 for \$4.25

Blackberries Bailey

Here is a new Blackberry introduced in 1950 by Dr. Geo. L. Slate of the New York State Experiment Station. Intensive breeding work has been going on at the New York State Experiment Station to improve Blackberries. Bailey is now considered the best of recent introduction and we are concentrating our production on this variety. The berries are large, attractive, moderately firm, sub-acid and of good quality. The plants grow tall, vigorous, hardy and productive. Ripens in western New York during the latter part of July. For home use and commercial production, we recommend this variety.

1-Yr., No. 1 Plants, Postpaid: 6 for \$1.95; 12 for \$3.75; 25 for \$7.25; 50 for \$13.50; 100 for \$21.95; 250 for \$46.50.

Currants

Red Lake. The new, giant red Currant. A pleasure to pick. Berries large, dark red in color, on long, well filled branches. Very hardy. Ripens over a long season. Long stems make picking easy. *Postpaid.*
Select, No. 1 plants, Each 90c; 3 for \$2.45; 10 for \$7.95; 25 for \$18.45.

Important: When ordering Gooseberry or Currant plants, it is necessary to have the following information:
1. County and Township where planting is to be made.
2. Approximate distance from nearest stand of White Pine (Five-Needled Pine).

If you do not receive the Currants and Gooseberries with your order, you will know we are holding them for the permit. If the permit is not granted, refund will be made.

Gooseberries

Strong Grower . . . Delicious Fruit

Red Jacket. Largest and highest quality of all Gooseberries. The attractive, red skinned fruit is borne upon vigorous, sturdy bushes. Extremely easy to grow, hardy and productive.

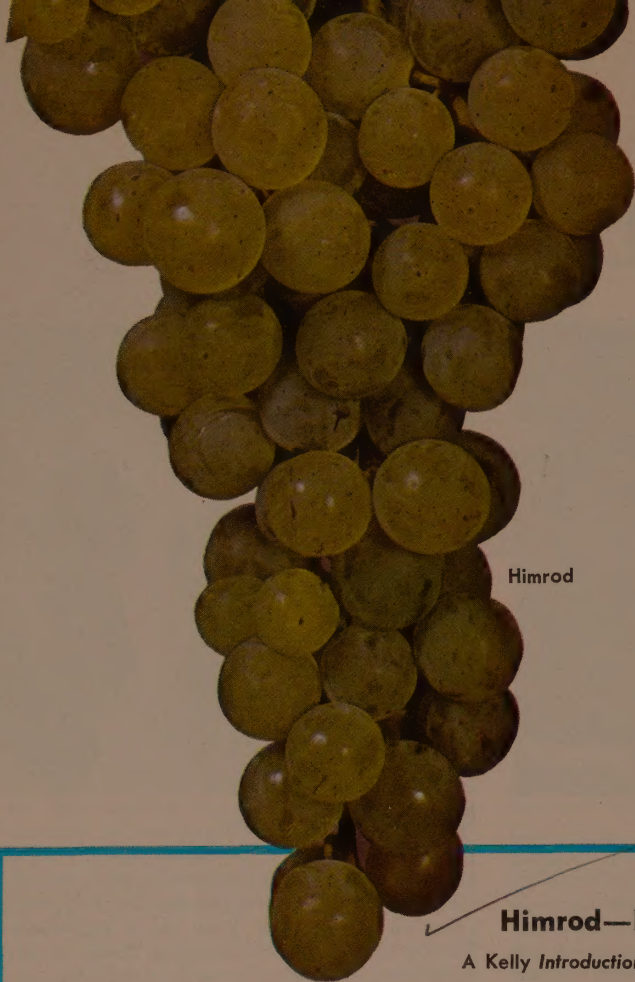

Pixwell. A new variety considered the best on the market today. A very heavy bearer with the berries being a light green that turns to pink when fully ripe. Will bear the next year after planting. *Postpaid.*

Selected, 2-yr. plants, Each \$1.25; 2 for \$2.35

Thornless Boysenberry

Thanks to Rudolph Boysen, Supt. of Parks at Anaheim, Cal. we are able to offer the world's largest, flavorsome, thornless berry. Just imagine berries as big as eggs, often 2 in. long and 1 in. wide! Bear the first year after planting with reports of 20 baskets perfect for canning pies, jam and juice. Grow vigorously, so plant 6 ft. apart. Hardy to 14° below Zero without any protection. *Postpaid.*

Kelly's heavy

Grape Vines

Easy to Care for—Last a Lifetime

Kelly's grape vines last a lifetime, require little space and will thrive in a wider range of soils and climate than any other fruit. The perfect selection for even the smallest home. Plant them as you would climbing Roses. Kelly's grapes are scientifically grown and selected not only for quality and productiveness, but exquisite beauty.

All are strong rooted, heavy, eager plants that will bear 10 pounds and more of ripe tasty fruit from each vine. Complete planting instructions, written in simple, easy-to-understand language, are sent with every order. A few dollars invested now in Kelly's selected varieties will bring you years of eating enjoyment.

Himrod—New Seedless Grape

A Kelly Introduction—Limited Supply—Order Now

Kelly's take pride in being the first to bring you Himrod—a superior new seedless grape—the product of many long years of testing and research; a triumph for the plant breeders at the New York State Experiment Station. This great new grape produces abundant rich, golden-yellow berries, hanging in loose clusters, inviting you to enjoy the sweet, delicious, vinous flavor. Each amber berry can be eaten whole, like California grapes, for there are NO SEEDS—each

berry just packed full of meaty, tender goodness. You'll pick basket after basket of mouth-watering, seedless, taste treats, ripening about September 15th, from vines that are extremely easy-to-grow, free from disease and very vigorous, withstanding temperatures of 20 degrees below zero without harm. The very best, carefully selected for outstanding size, quality, seedlessness and the capacity to bear and grow. Be the first to grow the very best. *Postpaid.*

	<i>Each</i>	<i>2 for</i>
Strong Select Plants, 2 yr. No. 1	\$1.95	\$3.75

Niagara (White)

Best known, popular white grape, ripening about the same time as Concord, September 25th to 30th. A very productive variety, producing large, heavy bunches of well-formed, very sweet, delicately flavored berries. Does well everywhere, bringing you years of fruit at its finest. *Postpaid.*

*Each 75c; 3 for \$1.95;
10 for \$5.45; 25 for \$11.25*

Portland (White)

Holds first place as the early white variety, ripening the first week of September. Attractive full clusters of the largest white grapes of magnificent flavor. Big, firm, sweet, extra juicy. A very productive, hardy, healthy vine, perfect for growing in all locations. *Postpaid.*

*Each 75c; 3 for \$1.95;
10 for \$5.45; 25 for \$11.25*

Caco (Large Red)

A new Grape which is proving to be a great favorite. Berries very large and sweet. A dandy variety for the home vineyard or Grape trellis. Sept. 28–Oct. 30. *Postpaid.*

*Each 75c; 3 for \$1.95;
10 for \$5.45; 25 for \$11.25*

Seibel 9110 (New French Hybrid)

Developed in France, this Grape is a beautiful golden yellow. Because of its excellent dessert qualities and early fruiting habit, we recommend that this variety be added to your planting. It is common for 2-year vines in the nursery to bear fruit. It has crisp texture and its good eating quality makes it a fine variety for roadside sales. Ripens in western New York about Sept. 15th. *Postpaid.*

	<i>Each</i>	<i>2 for</i>
2-yr. select vines	\$1.50	\$2.75

Golden Muscat (California Type Grape)

Wonderful new golden yellow Grape. For home use and roadside market it is one of the best. Possesses rich golden color and fine Muscat aroma of European Muscat. Vine is vigorous, productive. The clusters are very large and compact. Berries are large, juicy, sweet and tender. Oct. 5–10. *Postpaid.*

	<i>Each</i>	<i>3 for</i>
Selected, 2-yr. vines	\$1.00	\$2.85

Van Buren (Black)

Best new, early Grape. Desirable for home and commercial planting. Resembles Concord, but much sweeter and very juicy. Aug. 28–Sept. 2. We highly recommend this variety. Vine is heavy producer and vigorous in growth. *Postpaid.*

	<i>Each</i>	<i>3 for</i>
Selected, 2-yr. vines	\$1.00	\$2.85

Steuben (Blue-Black)

A New Creation of New York State Experiment Station. Never before have we grown a Grape of such exquisite flavor. Melting, tender, sweet with a delicate perfume-like flavor. Grows huge, perfectly formed, long slender clusters. Fruit is of outstanding quality, and the vine very hardy. Produces a full crop after 20 below zero. No spraying necessary—it is absolutely free from rot and mildew in our planting. Ripens a few days before Concord, but keeps well until Christmas. The greatest blue Grape ever grown. Supply limited—order early. *Postpaid.*

OFFER
No. 22

Here is a collection of the World's Finest Hybrid Tea Roses, each selected for its vigorous growth, beauty of form and size of flowers. Imagine 5 handsome bushes consisting of 2 Red, 1 White, 1 Two-Tone and 1 Yellow. If you were to buy them by name the price would be much higher. By selling this collection by color, and each variety is labeled by color, we are able to make this special offer to you.

Guaranteed to bloom this year

Sensational, Fast Growing TALLHEDGE

Rhamnus frangula columnaris, Pl. Pat. 1388

Everyone who has ever seen this remarkable new plant, wants it. Just imagine living columns of upright branches, as straight as sentinels, smothered with dark, green foliage right to the ground. And what foliage it is! Lustrous, large dark green leaves, are thick and heavy, sprinkled with color-changing berries, progressing through green, cream, pink and red, to a jet black. Your own natural kaleidoscope, right for any place, as single specimens or outdoor living curtains.

Easy To Grow—Carefree Beauties

Tallhedge grows like wildfire, often 3-4 ft. a year to handsome, leafy natural spires of 15 ft. with grass right up to the trunk. Never becomes bare-legged, nor grows wider than 4 ft. without pruning, pampering or upkeep in any way. Long lived, carefree plants that need no special soil, no special fertilizer; are resistant to disease, insect pests, city smoke, salt air and hardy to 20 degrees below zero. The most foolproof plant we know, ideal for home owners who want fast results.

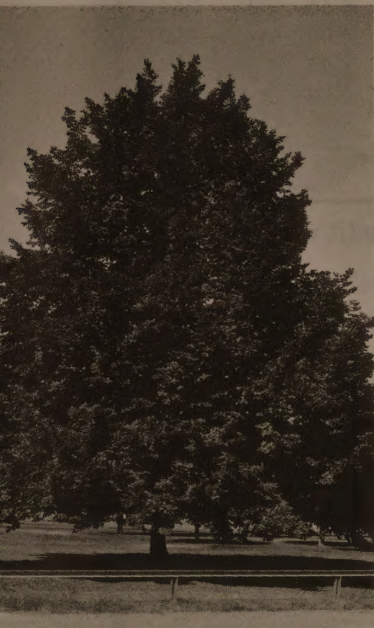

Decorate Your Garden—Living Walls Of Beauty

Plant 4-5 ft. apart for peek-proof screens, that are just the thing to muffle street noises—keep children and pets in or out—yard dividers—privacy for your outdoor living areas; or hide unpleasant areas. Sensational when planted singly as lawn specimens, frames for entrances—by walks or driveways and perfect as a picturesque highlight to decorate your garden. *Postpaid.*

GREEN THUMB GARDEN BOOK

by George Abraham

A new book by the Green Thumb whose garden column is in nearly 100 papers throughout the country. He reveals the secrets of a good lawn, how to trim, prune and cultivate trees, hedges, evergreens, annuals, perennials, roses, indoor plants, bulbs, hedges and shade trees. An indispensable source book answering all your problems in 288 full pages.

"Little Midget" GARDEN DUSTER

A hand-operated duster small in size yet a high-powered performer. Only 24 oz. of rust-proof aluminum alloy that with one turn throws an 8 ft. stream over roses, flower beds; even trees up to 10 ft. Easy to load chamber with new non-caking agitator action holds enough to do 200 plants with effortless ease. Comes to you complete, ready to use with a pound of free all-purpose dust.

All Purpose Garden Dust

No mixing, just put in duster and use. Enjoy a trouble-free garden keeping your flowers, shrubs, trees, fruits and vegetables lush and unblemished. A scientifically blended formula of all the amazing new organic and inorganic insecticides. Can be applied with any garden duster but when used with the little Midget, is the most efficient way of combatting insects and fungi we know.

Sturdy, Well Rooted Baby Evergreens

Watch them grow in value

Now even the most budget conscious can enjoy landscaped beauty, or walled windbreak protection with the welcome green "summer look" when everything else is cold and dreary. Just like a money tree, these evergreens will be worth many times what you paid for them in just a few years. You don't need a green thumb, just plant these husky, selected seedlings in your garden and watch them grow for two or three

years into choice specimen plants for permanent landscape location.

Every evergreen is started from the finest, healthiest disease resistant parent stock—scientifically grown and nurtured in the richest, most fertile soil and then hand selected for you. Each is so strong and sturdy, they are guaranteed to grow.

RA-PID-GRO The Miracle Plant Food

● WHAT WILL IT DO?

Ra-Pid-Gro works almost unbelievable miracles in promoting rapid and healthy growth on all types of plants. Use it on lawns, around shade trees, evergreen shrubs, roses, perennials, vegetables and house plants. All the vital plant food elements are present in this remarkable discovery and, since it is applied in liquid form, are readily available to the roots of the plant.

1 pound of Ra-Pid-Gro added to 30 gallons of water gives you a complete, quickly available, easily prepared plant food. Analysis 23 % Nitrogen, 21 % Phosphate, 17 % Potash.

1 lb. Ra-Pid-Gro (makes 30 gal.)..... \$1.30
2 lbs. Ra-Pid-Gro (makes 60 gal.)..... 2.50

25 lbs. Ra-Pid-Gro (makes 750 gal.) \$21.00, All Postpaid

● WHAT IS RA-PID-GRO?

Ra-Pid-Gro is a complete concentrated plant food. It is made into an immediately effective liquid fertilizer by simply adding water. It speeds up growth of plants and assures more successful transplanting of new plants.

● HOW IS IT USED?

Just add water at the rate of 1 lb. of Ra-Pid-Gro to 30 gallons of water. It is ready to use as soon as the Ra-Pid-Gro dissolves. Apply around each plant according to directions on the package. For a small number of plants, mix at the rate of 1 teaspoon to a quart of water.

5 lbs. Ra-Pid-Gro (makes 150 gal.)..... \$4.75
10 lbs. Ra-Pid-Gro (makes 300 gal.)..... 9.00

A Year-Round Guide to Practical Home Gardening

Now you can get down-to-earth advice on all phases of gardening, landscaping and lawn care, from *Better Homes and Gardens* editors. You'll see how to use every square foot of space for beauty and privacy, how to grow beautiful flowers, prize-winning fruits and vegetables, how to make your lawn velvety green. Everything clearly explained in pictures and everyday language.

Lavishly illustrated in full color. 520 pages, 1660 illustrations. Tab-indexed. Loose-leaf bound. Attractive washable cover. Only \$4.95, postpaid

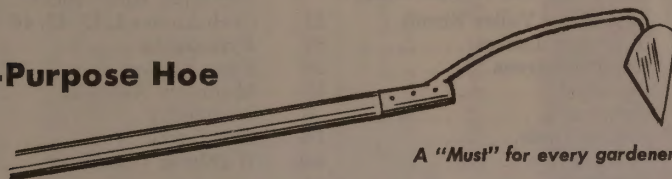

Jiffy Pots

Start your plants, seeds, seedlings or cuttings in Jiffy Pots. Imported peat and balanced plant nutrients start plants better, really make a difference you can see. . . . Watch roots grow through pot walls while plants grow stronger, faster and mature earlier. When ready for transplanting, plant pot and all in the ground. . . . Plants take root at once, no wilting, no set back. "The Best Thing Next to Mother Earth." Postpaid.

Answers to Questions

MOST COMMONLY ASKED WHEN BUYING NURSERY STOCK

Q. When is the best time to plant nursery stock?

A. Either Fall or Spring, though early Spring is preferred by many. Fall delivery season starts about October 15th and extends through to severe freezing of the ground. Spring delivery seasons starts March 15th and extends to June 1st. In our modern cold storage, we can keep plants dormant until the latter date.

Q. What shade tree will grow the fastest, provide suitable shade and look well?

A. Our recommendation is the Silver Maple, illustrated and described on page 50. Like many of the soft wood trees, it is, however, subject to splitting from heavy loads of ice and sleet, if the trees are not kept properly trimmed.

Q. Why don't you sell trees older and larger than those listed in your catalog?

A. Older and larger trees do not transplant as well and are difficult for the planter to handle. Smaller sizes respond more quickly, overcoming the initial size difference, thereby saving you money.

Q. How long before my fruit trees will bear?

A. This depends on the variety and root-stock, but we have found the following to be quite true:

	Years after planting
2 yr. Apples.....	3-4 yrs.
2 yr. Pears.....	3 yrs.
2 yr. Plums.....	2-3 yrs.
2 yr. Sour Cherry.....	2-3 yrs.
2 yr. Sweet Cherry.....	3-4 yrs.
2 yr. Quince.....	1-2 yrs.
1 yr. Peach.....	2-3 yrs.

Q. Should I trim my trees when planting them?

A. It is most important that pruning be done as we suggest in the planting guide sent with each order. Trees and plants set out in the Fall, however, should not be trimmed until early Spring.

Q. Will the Roses and shrubs I plant this Spring bloom this Summer?

A. The Roses will bloom profusely all summer. Be sure to trim them at planting time as we direct in the planting guide. Many shrubs will also bloom the first year, but some which form flowers only on two-year wood may not bloom until next year.

Q. How deep should I plant my fruit trees and Raspberry bushes?

A. All stock should be planted slightly deeper than it stood in the nursery row. We explain the procedure by description and illustration in the planting guide mailed with every order.

Q. How many Strawberries, Raspberries, Grapes and Blueberries, and Asparagus should I plant for a family of five?

A. This will depend upon the family appetite for fruit. Strawberries, 25-200 plants; Red Raspberries, 10-50 plants; Grapes, 3-10 plants; Blueberries, 3-10 plants; Asparagus, 50-100 plants.

Q. Should I fertilize my trees or put manure in the holes at planting time?

A. Fertilizers are of no value until the roots are established and growing, thus being able to absorb the nutrients. Manure is best used as a mulch on top of the ground well back from the main stem. It may severely injure the tree, if placed directly in the tree hole. Wet peat moss or similar material mixed with the soil at planting time (1 part of peat moss to 4 parts of soil) makes an ideal combination for conditioning the soil.

Q. Will the Strawberry and Raspberry plants I set this Spring produce fruit this year?

A. Ordinarily they will blossom and fruit. However, to increase the bearing surface for a big crop, the next year, it is best to remove the blossoms the first season, except from Everbearing varieties.

Q. How can I tell if my soil is sufficiently acid for Blueberries?

A. Soil having an acidity testing between pH of 4.4 and 5.0 is considered best. If you cannot have your soil tested locally, send a sample to your State Experiment Station (see list below) and they will test it for you.

Q. If I plant Asparagus in the Spring (Example) 1963 when can I harvest the first crop?

A. You could cut some Asparagus in 1964, but the first big crop would be in 1965.

KELLY'S NEW CLUB-PLAN

PICTURE PERFECT PLANTS AT NO COST TO YOU

Kelly's have introduced a new Club Plan that allows people, like yourself, to own and enjoy the most beautiful shrubs, hardiest evergreens and productive fruit trees - without one penny's cost.

Kelly's "Share-the-profit" Club Plan is a way of saying thanks to our thousands of satisfied customers. At the same time, it's a wonderful and convenient way for members to easily get all the Kelly plants they want.

Who May Form a Club

You may! All you need to start a club is to send this card for easy, detailed, step by step directions. It costs you nothing and your friends get all their famous Kelly plants for only \$1.00 per week.

Kelly Brothers Nurseries Inc.

Your Reward For Being Club Secretary

Just for helping your friends this easy way, you, the secretary, will receive your choice of no less than \$12.50 worth of Kelly's choice nursery stock for every 5 members, and up to \$100.00 and more, depending upon the number of members in your club.

Perfect For Community Project

Kelly's Club Plan is, also, an ideal way for organizations, such as garden clubs, service organizations and other groups to donate plants for beautifying the grounds of hospitals, churches, parks and other municipal projects.

Mail this card today for your secretary's book and detailed easy step by step instructions.

FRUIT and SHADE TREES OF HIGHEST QUALITY

Established 1880

Romulus Seedless

A sister to the Interlaken. (They were both developed at the New York State Experiment Station.) We can recommend this variety to extend your good-eating grape season. Ripens about September 15th, or 2 to 3 weeks after Interlaken Seedless. Hardy, bears well and regularly. Fine flavor, superior quality from attractive, large amber-white berries, **THAT HAVE NO SEEDS**. When it starts fruiting, you will wish you had ordered more. *Postpaid.* Each 2 for Select Vines.....\$1.50 \$2.75

Concord Grape

A National Favorite—Bunches Are Large, Color All-Over Blue-Black. The leading commercial Grape. Color blue-black; berries and bunches large. Hardy, productive, and an excellent shipper. Succeeds over large area. Excellent for Grape juice. September 25 to 30. *Postpaid.*

Each.....75c 25 for.....\$11.25

Fredonia

SEEDLESS TWIN SPECIAL

1 Interlaken Seedless
1 Romulus Seedless

BOTH ONLY

\$2.75

POSTPAID

Delaware (Red)

Unusually sweet, highly flavored red grape, of excellent quality. A showy variety with compact medium clusters of above average, firm textured berries ripening about September 20th. Very vigorous, hardy and productive. Once planted, will bring a lifetime of eating enjoyment. *Postpaid.*

Each 75c; 3 for \$1.95; 10 for \$5.45;
25 for \$11.25

Fredonia (Black)

You will surely wish to plant and enjoy these firm, juicy, jet-black, sugar-sweet grapes, developed at the New York State Experiment Station. Produces immense clusters of fruit 3 weeks before Concord. A vigorous grower, hardy and productive. Bring in a bowl-full and you will have to go back for more and more. *Postpaid.*

Each 75c; 3 for \$1.95; 10 for \$5.45;
25 for \$11.25

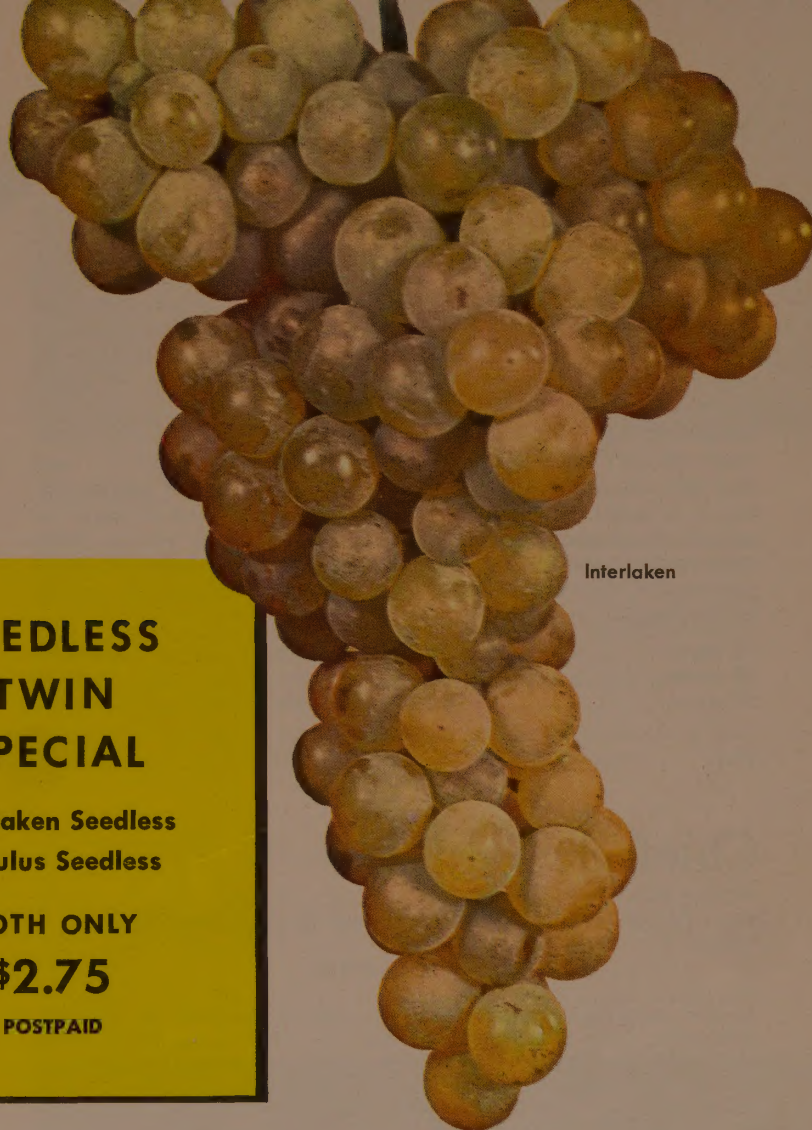

LONG SEASON FRUIT COLLECTION

4 Kinds, ripening from August to November

1 Interlaken Seedless (August) 1 Concord (Late Sept.)
1 Fredonia (Early Sept.) 1 Caco (October)

ALL 4, 2 yr. No. 1 plants; only **\$2.95** Postpaid

(\$3.75 value—YOU SAVE 80c)

Interlaken

Interlaken Seedless

*A California Seedless Type
that is hardy in the North*

The outstanding development; from crossing Thompson Seedless, a California grape, with our own Ontario grape, **WITHOUT SEEDS**. A seedless variety you can grow in your own garden, proven hardy to 15 degrees below zero. The many amber-colored berries are crisp, solid-sweet, clustered nuggets of pure enjoyment that can be eaten whole with no seeds to bother. Ripens in August, bringing added pleasure to summer salads and fruit compotes. Just imagine, sweet, seedless fruit from your own vines, better than those sold in stores. For flavor, quality, easy growth and downright goodness, plant Interlaken this Spring. *Postpaid.*

Each.....\$1.50 2 for.....\$2.75

The Wonder Berry—Large, Luscious Berries

Red Rich (Bears all Summer)

Pl. Pat. 993. At last, the Strawberry that's a real sensation. Enjoys all the finest qualities known to Strawberry plants. *UNIVERSITY REPORT SAYS*: "Of the 29 everbearing varieties tested here last season Red Rich is by far the best. I think it is the everbearer for which we have been waiting. (Signed) Hershel L. Boll, Agriculture Dept., University of Illinois." BEARS ALL SUMMER—gives you luscious, honey-sweet Strawberries all summer long throughout the fall until winter freeze. MAMMOTH PLANTS—HUGE BERRIES, we've never seen plants so big and strong. This means disease resistant strength and enormous yields. PLANT BY NEW METHOD, WONDERFUL YIELDS. Each Red Rich shipment carries new "Space System" planting instructions. Get up to a pint per plant the first year and up to a quart per plant the second. Fewer plants needed—25 plants per person is plenty. TOPS FOR FREEZING. Slice one. They're red clear through. Plenty of natural sugar and a firm texture that holds shape when thawed. Wonderful winter desserts. *Postpaid.*

Chief Bemidji (PAF)

*New everbearer so rugged it can be grown
by Eskimos*

A new super-hardy everbearing strawberry developed at Bemidji, Minnesota, where temperatures are often the lowest in the United States (40 to 50 degrees below zero). Chief Bemidji survives these temperatures with no winter cover and rewards you with large beautiful berries, bright scarlet red to the core. A big cropper, high sugar, extremely sweet, low acid flavor. A winter proof variety that will not only provide you fresh, honey sweet berries in June, but also in mid-summer and again abundantly from September till frost. Plant Chief Bemidji this spring and enjoy delicious berries all season—it's really good. *Postpaid.*

red rich

EVERBEARING

Strawberry Leaders

Superfection The Sensational Everbearer

Will produce berries 90 days after planting. Berries round, of firm texture; dark red color all through. Will ship long distances without losing color or firmness. Bears an abundance of large berries from spring until frost. A hundred plants in your garden will produce enough berries for an average family. Good for the small gardener, as a commercial proposition, and can't be beat for its zippy, sweet flavor. *Postpaid.*

Sparkle

Strawberry favorites

New Virus-Free Strawberries

You can be sure our Strawberry plants are the best available. Most plants listed on pages 38 and 39 are the new VIRUS-FREE strains introduced by the U. S. Department of Agriculture.

Experiments show that our plants BEAR HEAVIER and are MORE PROLIFIC than common Strawberries. The plants will LIVE LONGER and produce LARGER BERRIES.

These virus-free plants are the greatest advance in the history of Strawberry growing. Order your plants from us now, and see how easy it is to grow large crops of delicious fruit.

New Midway

(Midseason.) A recent introduction that is exceptionally productive. You've never seen plants so big and vigorous, or berries so bright shiny red clear through to the core. The luscious, big berries are honey sweet all the way through and retain their firmness and fine appearance long after picking. It is one of the best all purpose berries. *Postpaid.*

New Midland

(Early.) A new very high flavored berry, known for quality and always a favorite with outstanding size, beauty, productivity, firmness and freezing ability. A cross of Premier and Redheart. The berries are large, deep glossy red, full of rich strawberry sweetness. Freezing tests show Midland to be one of the very best for home or commercial use, remaining firm textured and won't mush when thawed. You'll be glad you planted this outstanding berry. *Postpaid.*

New Hormone chemical develops larger and meatier Strawberries, Raspberries and Blackberries. It really works. Just mix with water and spray the open blossoms. Perfectly safe to spray the whole plant. *Postpaid.*

3 oz. \$1.00	1 oz. 50c
-------------------	----------------

Empire

(Midseason to Late.) A Creation of New York State Experiment Station. A New Strawberry. Red, larger. A new variety for both the home and roadside stand. Produces huge berries over an unusually long season. Where space is limited for the home garden, Empire will give the most fruit in the least space. Raise for fresh use only. Very attractive berries of excellent quality average extra size. This fruit is firm, holds its appearance well, withstands adverse growing conditions, thus making an excellent shipping berry. *Postpaid.*

Kelly's garden specials in New Fruits

Howard's Miracle Plum

The most sensational fruit of a decade . . . the wonder plum of the age

(Pl. Pat. 721.) This new fruit marks a new era in the advancement of fine fruits for the table. It has a delicious and tantalizing flavor, is large size, has firm amber flesh, and its red and yellow Maple leaf color places it in a class by itself.

Those fortunate enough to have eaten this fruit offer various comments as to its flavor. Some say the taste is like Pineapple, others compare the taste to a Peach, Plum and Nectarine combined. Invariably, after tasting the "Howard's Miracle," comes the exclamation: "This fruit is truly a miracle. It is something out of this world." "HOWARD'S MIRACLE" is even more delicious in preserves.

Has a thin skin which is unnoticeable when eating, while the meat is Nectarine-like in quality. The fruit of Howard's Miracle is extraordinarily large, averaging $2\frac{1}{2}$ to $2\frac{3}{4}$ inches, but the seed is only miniature.

It is beautiful for lawn planting, foliage becomes richly tinted in the fall, similar to a Maple. Very hardy—having been reported by customers to survive 20 degrees below zero in northern Wisconsin without damage. Grows 15 to 20 ft. in height.

Howard's Miracle is undoubtedly the most exciting fruit today. You will find that you have never tasted fruit like it. Is it Nectarine? Is it Peach? Is it Plum? Is it Pineapple? Plant one or more of the exceedingly fast growing, quick bearing trees and harvest fruit the second year. *Postpaid.*

3-4 ft. Each **\$2.25**; 2 for **\$4.25**

New Collette Everbearing Pear

(Pl. Pat. 1401) Fantastic, but true. Basket after basket of your own fresh picked pears from this all season producer. Collette blooms at the normal time, and then keeps on blooming and bearing most of the summer. You will find branches with blossoms, and small green pears, half grown, half ripe pears and full grown ripe pears—all at the same time. It is the only everbearing pear. A veritable one tree "fruit factory."

BEAUTY ALL YEAR LONG

Plant them anywhere for marvelous ornamental effects. Low growing, their graceful spreading branches are a delight all year. A constant parade of delightfully fragrant blossoms with big, bright golden pears, clustered like jewels among glistening green foliage.

EXTREMELY HARDY, EASY TO GROW

Collette is hardy, prolific and guaranteed to grow and bear. These trees are the finest grown anywhere, and will thrive in any good garden soil, growing to 15 ft. at maturity. *Postpaid.*

Chinese Elm

Hedges

for Color, Privacy

Chinese Elm

An Excellent Windbreak

America's fastest growing hedge, making a good showing in just a few months. The rapid growth and general hardiness make it one of the most valuable for windbreaks, screening, and accents along drives or dividers between areas. They branch thickly from the ground up and you can trim to any desired height from 5 to 20 ft. The more you trim, the more dense it becomes. They are the first to leaf out in the spring and last to shed in late fall. We recommend planting 8 inches apart and cutting nearly all the top, leaving 3 or 4 inches. This stimulates growth and insures complete satisfaction.

	12 for	25 for	50 for	100 for
18-24 in.....	\$1.45	\$2.45	\$4.45	\$8.45

The Effective Blue Leaf Hedge

A new, charming, silvery blue-green shrub. Grows anywhere in sun or shade, dry, wet or heavy soils where other plants perish. If left untrimmed, its feathery, willowy foliage makes a beautiful compact dwarf hedge 3 feet high and 2 feet wide. If trimmed it makes a colorful low, formal hedge. Plant one foot apart for low edgings, around beds or along walks. Single specimens are delightful in the rock garden.

12-15 in.....	\$4.95	\$11.25	\$18.95	\$35.00

Bridal Wreath *Spirea Van Houttei*

One of the best known shrubs of America. Exceptionally hardy and will grow in either sun or shade. Attains a natural height of 5-6 ft. and is completely covered with clusters of small white flowers in June. Can be trimmed any time during the summer. Plant 3 feet apart for an informal hedge.

	10	25	50	100
12-18 in.....	\$3.75	\$8.75	\$14.95	\$24.95

Bush Honeysuckle *Lonicera tatarica*

Very hardy, growing in the poorest soil. Flowers freely in May and June with fragrant pink flowers, followed by red berries in the fall that are attractive to birds. Rapid growing, attaining a height of 8-10 ft. and is ideal for specimen planting, hedging or screening purposes.

	10	25	50	100
12-18 in.....	\$3.95	\$8.25	\$14.95	\$24.95

Green Leaf Barberry *Thunbergi*

Best all-purpose hedge of marked excellence because of its bright green foliage, changing to brilliant colors in the fall. Has bright scarlet berries throughout the winter. Dwarf and regular spreading in habit. Grows well in shade, used extensively in landscape work. Very hardy and has never been known to winter-kill. It bears and shears well and makes a dense hedge.

15-18 in., 2-yr.....	4.95	9.95	18.75	35.00

Midget Hedge *Teucrium Chamaedrys*

A low growing hedge suitable for edging or growing in front of a wall. Resembles dwarf Boxwood, holding its leaves 10 months of the year. Grows 10 to 15 inches but can be sheared at any height lower than that. Hardy and thrives in most locations. Should be planted 6 inches apart for a dense hedge. 10 for \$3.95; 25 for \$8.75; 50 for \$14.95; 100 for \$24.95

Amur River Privet

Extremely hardy—they withstand the severest winters. Best for northeastern conditions. Will grow 10 feet in height but may be pruned to any height and sheared to desired form. Branches are upright, foliage oval or oblong; can be made very dense by pruning. Resembles California Privet in growth. Very hardy and almost an evergreen, holding its green leaves almost all winter. Plant 9 to 12 inches apart.

New Robin Hood rose hedge

*Better, dense
protective
hedge*

A three year planting of the quick growing red flowering Robin Hood Hedge that can be kept trimmed 2½-3 ft. wide. Do not confuse the authentic "Robin Hood" with other red rose hedges on the market.

MINIATURE ROSE COLLECTION

1 of each variety listed

all 6 plants \$6.50 postpaid

Red Imp (Pat. 1032.) This new Miniature Rose is a deep, rich crimson that is startling in its brightness. It is an unfading, even color with no light markings. Fully, solidly double, with 45 to 60 petals packed tightly right to the center. Opens very flat. The beautiful buds and blooms are as perfectly formed as the best of the big Roses. *Postpaid.*

Each \$1.25; 3 for \$3.30

Bo-Peep (Pat. 976.) Adorable, deep rose-red buds and densely double, arbutus-pink flowers. Very free in bloom, with many buds together in strong, branching flower sprays. One of the finest. *Postpaid.*

Each \$1.25; 3 for \$3.30

Tinker Bell (Pl. Pat. 1293.) Masses of luscious bright-pink, fully double blooms of excellent form. Up to 65 petals, perfectly packed in each tiny blossom, only 1¼ inches across. Perfection in miniature of the finest exhibition form found in big roses. The vigorous bushy plant, only 10 inches tall, bears continuously indoors and out. You'll like this little beauty. *Postpaid.*

Each \$1.25; 3 for \$3.30

Pixie (Pat. 408.) World's tiniest, fully double white Rose, 40 or more petals arranged into perfectly formed flowers only ¾ inch across. Buds sometimes have a pinkish tinge, which is carried over into the flowers during the cool season and may last until they have fully expanded. At other times will be pure white. Very free in bloom. Dainty foliage. Hardy as the big Hybrid Teas, starts blooming earlier in spring, continues until fall. *Postpaid.*

Each \$1.25; 3 for \$3.30

Baby Gold Star (Pl. Pat. 407.) Graceful, tiny, rich-golden buds opening to fully double buttercup-yellow blooms. Neat, shapely plants somewhat larger than other miniatures, growing to about 14 inches. One of the most dependable and best yellow. *Postpaid.*

Each \$1.25; 3 for \$3.30

Sweet Fairy (Pl. Pat. 748.) Clusters of large, double, dark-pink flowers follow each other in a never-ending succession of delicate blooms with true rose fragrance. With the approach of cool weather, the buds and blooms become cherub-pink. One of the best indoor flowering varieties with trim, perfectly formed, vigorous plants about 10 inches tall. A gem. *Postpaid.*

Each \$1.25; 3 for \$3.30

A perfect hedge Rose; its habit of growth is densely compact and it produces an abundance of healthy, deep green foliage. Like all Hybrid Musk Roses it is strongly resistant to the common Rose ailments. The smothering wealth of flowers which are cherry-red are produced in clusters early in the season and again sparingly during the summer and autumn. This past winter the hedge illustrated, which is a row of 3-year-old test plants, went through temperatures of several degrees below zero without injuries. We believe that in Robin Hood we have the hedge Rose we have been looking for. It will certainly give more satisfaction to the small property owners than the popular Multiflora Rose. It is not particular as to soil, can be cut to any desired height over 3 ft. Can be planted 12 to 18 inches apart, depending on how thick you want the hedge.

Miniature Roses

*The Mighty Mites of Rosedom.
A rare floral achievement for distinguished gardens.*

These fascinating little plants are true Roses, with tiny thorns, foliage, buds and blooms that are exact mimics of the finest big exhibition Roses. But the full-grown plants of these Miniature Roses are only 6 to 12 inches tall, and the biggest blooms are only about an inch across. They start blooming in May and keep right on all summer. All they ask is good soil, good drainage, a fairly sunny spot and reasonable care. They thrive indoors and out as hardy as the big Roses.

Rare and Fabulous Ornamental Beauty Royal Purple Smoke Bush

(*Rhus cotinus*, *Royal Purple*) As if painted by his majesty's artist, every leaf of Royal Purple shimmers with regal purple elegance. The billowing, feathery cloud-like flowers in June and July are as richly colored as the foliage, creating a dramatic effect. In autumn, when the leaves begin to turn, it is a riot of colors, always the object of great interest and curiosity. Royal Purple grows to 8 ft. of unequalled beauty, thriving in all locations. Royal Purple is the only Purple Smoke Bush to receive the Certificate of Merit from the Royal Horticultural Society. A rare, fine plant of recent discovery that you will enjoy owning. *Postpaid*.

Climbing Hydrangea

The choicest of all vines

(*Hydrangea petiolaris*) This perhaps is the finest and choicest of all the vines. It is woody but clings to brick or wooden walls without support, and also does fine on old trees or stumps. Its foliage is bold, clean and shrub-like, and a rich dark green color. White, fragrant, Hydrangea-like blooms throughout the summer. The effect created is most artistic as well as amazing. Does equally well in shade or sun. In fact, we recommend the Climbing Hydrangea for north, west wall or such places where shade is dense in summer. If you own one of these vines you will have something you will admire all your life. The height can be easily controlled from 10 to 20 feet as desired. *Postpaid*.

An Early

Spring Showpiece

Chinese Redbud

(*Cercis Chinensis*.) A jewel of a small tree with extremely large leaves. This charming, brilliant spring-flowering shrub is a Chinese counterpart of the American native Redbud. It flowers at the same time, but quantity and quality of the flowers far surpass those of our common wild form. It is shrub-like in growth, and when in bloom every branch and twig is covered with thousands of bright purple-red blossoms almost double the size of the common variety and noticeably darker. You will surely want this in your garden. Ultimate height from 6 to 8 feet. *Postpaid*.

2-3 ft. trees.....Each \$2.45 2 for \$4.50

Floral Cascades of

Breathtaking Beauty

Developed at Brooklyn Botanic Garden

New Red Jade Crab

(Pl. Pat. 1497.) This graceful flowering Crab adds emphasis to the garden because of its graceful semi-weeping branches. For sheer beauty in the spring, the charming cloak of blush white flowers, followed by Red fruit in the autumn, will add that touch of dignity so welcome in your garden.

We highly recommend this small tree for its beauty and sturdiness. Ultimate height 10-12 feet. *Postpaid*.

4-5 ft. specimens.....Each \$7.50 2 for \$14.50

Globe Arbor-Vitae

Spreading Japanese Yew

Evergreens for beauty

Kelly's scientific growing now makes it possible for you to enjoy the luxury of evergreens at little expense. We send young, vigorous plants which have been transplanted 3 times, developing healthy, compact roots eager to quickly grow into mature specimens, as illustrated. Your trees are shipped at the proper planting time in a special moss that keeps the roots moist, for these quick growing, eager evergreens do not need to be balled and burlapped.

Upright Japanese Yew

Pyramidal Arbor-Vitae

Hicks' Yew

Canadian Hemlock

Pfitzer's Juniper

Globe Arbor-Vitae

A natural globe-shaped evergreen. Has broad fan-shaped leaflets. Dwarf habit of growth, usually not growing over 3 ft. tall or 3 ft. in diameter. Fine for doorway, foundation planting or for formal designs, tubs and urns. *Postpaid.*

8-10 in., heavy transplants,
\$1.95 ea.; 2 for \$3.60

Spreading Japanese Yew

Taxus Cuspidata. This evergreen usually grows more wide than tall. Branches out from the bottom with several stems, developing into a bush form. Rich, dark green foliage with numerous crimson berries in the Fall. Does well in sunny and northern exposures. Fine for foundation plantings. *Postpaid.*

12-18 in., heavy transplants,
\$1.95 ea.; 2 for \$3.60

Upright Japanese Yew

Taxus Capitata. The normal habit of this Yew is a pyramidal form, broad at the base and tapering to the top of the tree. A rapid growing tree, so can be trimmed back at least twice during the summer. *Postpaid.*

15-24 in., transplants,
\$2.50 each; 2 for \$4.75

Spreading Pfitzer's Juniper

This evergreen naturally grows in a low, wide spreading habit. It will stand considerable shade and crowding, which makes it a favorite for foundation and informal plantings. If kept untrimmed, will spread 4 to 5 feet. Can be kept low to the ground by trimming. *Postpaid.*

10-15 in., heavy transplants,
\$1.95 ea.; 2 for \$3.60

Pyramidal Arbor-Vitae

On account of its rapid growth, its bright green color, its shapely even pyramidal habit and ease of trimming, this evergreen ranks among the leading ones for the Eastern United States. Will grow 15 feet tall but seldom over 2 feet in diameter. May be freely cut and trimmed and thereby kept within any bounds necessary. *Postpaid.*

12-18 in., heavy transplants,
\$2.00 ea.; 2 for \$3.90

Hicks' Yew

Taxus Hicksi. A narrow, upright *Taxus* with vertical branches. Can be kept trimmed to a desired shape and height. It has rich, dark, glossy green color, making it very popular. Tree resistant to extremes of heat and drought. *Postpaid.*

12-18 in., heavy transplants,
\$1.95 ea.; 2 for \$3.60

Canadian Hemlock

The most beautiful and graceful of all evergreens, noted for its majestic stature with nodding branches from the ground up. Remains colorful throughout the year, covered with lustrous, lacy foliage of deep green touched with silver. A great landscaping favorite, developing a broad, even pyramid, reaching 40-60 ft. at maturity but may be trimmed to any desired height or sheared to any size for a lower hedge. Does well in full or partial shade and prefers plenty of moisture. Distinctive and beautiful, *postpaid.*

12-18 in., heavy transplants,
\$1.75 ea., 2 for \$3.25

Flowering Trees

for Colorful Flowers and Foliage

Mountain Ash

European Mountain Ash

Sparkling Bright Berries
Snow White Flowers

Much more satisfactory than the native species, since it fruits more prolifically and has more compact habit. Large, flat clusters of white flowers in the spring. Clusters of flashy, orange-red berries all over the tree in summer and fall. Deep green, clean foliage perfectly implements the graceful, upright habit. Grows to a height of 18 to 25 feet with a spread of 15 feet maximum.

Flowering Almey Crab

Flowering Almey Crab

Gorgeous All Season Beauty

What a vision of loveliness when in full bloom! Your garden will be enriched by masses of dollar size flowers of rich, glistening, fiery crimson. White markings at the base of each petal give the effect of a five-sided star. The abundance of thickly massed blooms appear even more dazzling against the foliage.

Almey is a majestic small tree—12 to 15 ft.—but it is vigorous and rapidly attains just the right size for ranch type and modern properties. Often blooms the first year planted. Perfectly hardy, even in the coldest sections, thriving in full sun or partial shade.

Almey repeats its springtime splendor by producing an abundance of scarlet fruits that cling tenaciously, studding the branches with brilliant pendants long after the leaves have dropped. For a sparkling, colorful display from early spring right through fall into winter, plant Almey this spring. The results will delight you. *Postpaid.*

Outstanding Ornamental and

Sensational Moraine Locust

An Outstanding Shade Tree of Unusual Character. Trade Mark (Pl. Pat. 386). We are proud to offer this sensational shade tree, because we believe it so perfectly fills the needs of today. It will provide good shade quicker than any tree we know of.

The Moraine Locust is hardy, drought-resistant and grows successfully on a wide range of soils. Because it is sterile, there are no unsightly seed pods to clutter up the lawn. It is also thornless.

Vase formed in shape, wide spreading when older, like stately old Elm trees. The finely cut foliage allows enough light to filter through to promote excellent growth of lawns, yet provides shade dense enough to discourage growth of crab grass.

Easily transplanted and will produce good growth on any kind of soil.

Try a planting this spring. Grows to a height of 25 to 40 ft.

Sunburst Locust

Crimson King Maple

The Aristocrat of Ornamental and Shade Trees. (Pl. Pat. 735). You will want to be one of the first to own this distinctive, colorful, captivating tree, which was sent to America a few years ago from Europe. Crimson King develops a rounded, compact shape of unusual symmetry but differs from all other Maples in having foliage of deep crimson-purple all through the growing months, bringing you an exhilarating contrast to the prevalent greens. Your Crimson King is perfectly hardy and easily grows from 25 to 40 ft., not harmed by smoke, dust or grasses, bringing you colorful beauty for generations to come. Surely "Crimson King" is beautiful beyond words. Order now and possess one of the finest trees grown.

6 of the Best Colors in Our Famous Glorymums

After the second year planting, these **HARDY MUMS** develop into sizes as large as a bushel basket, and each plant is literally covered with many hundreds of lovely flowers which you can buy from us in the six colors listed below.

Bronze Glorymum

A lovely deep Rembrandt color. Planted alone it develops into a large, round flower cushion—plump with hundreds of blossoms. One of the prettiest of the Glorymums, yet it requires little care.

Pink Glorymum

Like a large pink satin cushion. The oldest of the Glorymums—still one of the best. A large plant by early fall, completely covered with beautiful pink blossoms that often cover all the leaves. A lovely sight in early September 'til late fall.

Red Glorymum

Dazzling scarlet brushed with a lavish hand. Each blossom a fiery red color that blends into an over-all mass of brilliant red color. Stunning if used with other Glorymums. This plant has been known to have over 500 blooms and some buds on the bush five months after being established. Blooms from September until freezing weather.

White Glorymum

Lovely alone—complements all other colors. Pure white blooms that blossom freely. Lovely white that enhances all the other colors without losing its own beauty.

Yellow Glorymum

The end of the rainbow—the pot of gold! A brilliant golden yellow that takes an early lead in the "Mum" show. A little care will reward you with a thousand blooms or more at one time. We love this yellow Mum. You will, too.

Violet Glorymum

A new color for beauty. A brilliant violet color, which you will want to add to your collection of Mums. Covered with beautiful blooms, which you will enjoy.

Large Type—Finest Fall Colors

Chrysanthemums

Hardy Garden Perennials That Bloom Profusely

Few flowers have the versatility of color that is common to the Chrysanthemum. One of the most popular flowers used by florists for bouquets and floral arrangements can be grown right in your own garden. These varieties, grown for us by one of the world's largest and most scientific Chrysanthemum growers, are all perfectly hardy and will begin blooming in your garden in early September and lasting until frost. The varieties were carefully selected for their beautiful colors, complete hardiness, and the time of blooming to insure your complete satisfaction. These beautiful flowers grow to a height of 18-24 inches, and are excellent for cutting purposes. They bloom profusely in the late summer and fall, and add a world of color to landscape plantings.

Bronze Queen

Lipstick

Fire King Lily

Regal Lily

Royal Gold Lily

True Pink Lily, *L. Speciosum Rubrum*

No other plant brings to your garden the exotic charm and loveliness of lilies. We offer these outstanding varieties that have come from all corners of the globe to delight you with their grace and

charm. These glorious flowers are sure to please, combining graceful habit with perfect form, lovely colorings, finest substance and exceptional lasting qualities.

Famous Harvest Giant Football MUMS

Imagine, Huge, Corsage-Size, Football Mums in your Own Garden. Yes, great big, long-stemmed "football" mums, flowering from September till snow flies, like expensive greenhouse kinds. All early blooming, giant cup-shaped flowers often measure 7 inches across in a riot of gay, collegiate colors.

Your choice of varieties Each 3 for 6 for Postpaid..... \$1.00 \$2.75 \$4.75

Full Moon (Pl. Pat. 2005)—Outstanding pure white blossoms up to 6 inches in diameter. A consistent bloomer ideal for cutting.

Pumpkin (Pl. Pat. 1978)—Great big blooms, round and big as jack-o-lanterns of shining salmon-bronze. Very compact, bush growth. Starts to bloom in mid-September. One of the very best.

Red Skin (Pl. Pat. 2004)—Immense, showy, bright maroon-red blooms of pure loveliness. A vigorous grower, hardy and free flowering, starting in September. Each flower is so perfect, so gorgeous, you will consider it priceless.

September Song (Pl. Pat. 2001)—Big, impressive, firm flowers of glowing rose-pink. Flowers continuously from early September till freezing. Brilliant, distinct and colorful.

Touchdown (Pl. Pat. 2002)—Largest of the Harvest Giants. Blossoms up to 6½ inches in diameter of very distinctive, long lasting deep rose pink.

White Frost (Pl. Pat. 2007)—Very large perfectly formed, pure white flowers with incurved petals and fine, stiff stems for cutting and corsages.

Indian Summer

Indian Summer (Pl. Pat. 2003)

Large, fully double flowers up to 7 inches across of glorious, intense, bright bronze-red. Particularly liked because of its hardness as well as being a strong grower and heavy bloomer. A star attraction, and sure-fire attention-getter. *Postpaid.*

Strong Plants. \$1.00 Each, 3 for \$2.75, 6 for \$4.75

Gold Dust

Gold Dust (Pl. Pat. 2006)

A rare, beautiful shade of exceptionally bright golden Yellow. The large ball like blooms are full and shapely. Flowers from early September till snow, on bushy plants, that we consider one of the very best. Hardy, easily grown. *Postpaid.*

Strong Plants. \$1.00 Each, 3 for \$2.75, 6 for \$4.75

Mid Century Hybrids

Kelly's LILIES

Mid Century Hybrids

The result of crosses, thought impossible until accomplished by Jan De Graaf. The vigor, stature, size of flowers and diversity of color, far exceed the original parents. They bloom in clusters on 3-4 ft. stems each of different shades and colorings. No two are alike. Beautiful year after year in sun or partial shade. *Postpaid.*

Each 85c 3 for \$1.95 6 for \$3.45

New Fire King Lily

Even at a long distance, the most beautiful fiery red lily we have ever seen. Very heavy bloomer, and 60-80 blooms atop wiry 3-4 stems is not uncommon. A perfectly hardy, luminous beautiful flower, worthy of its name. *Postpaid.*

Each \$1.25 3 for \$3.25 6 for \$5.85

Prosperity

Enchantment

Colorful, Graceful Plants Unmatched for Floral Beauty

Prosperity

Imagine 3-4 ft. stems in June and July crowned with 6 to 10 exquisite lemon-yellow, stylish trumpets. Vigorous and hardy, producing more and more stems each year by natural division. A splendid variety by Jan De Graaf, the world's most famous lily hybridizer. *Postpaid.*

Each 85c 3 for \$1.95 6 for \$3.45

Regal Lily

Gorgeous, large, white, trumpet flowers with a pearly tint, flushed with yellow; shading to a warm brown on the ribs. One of the hardiest lilies in cultivation, producing 15 to 20 flowers in June and July on 4 to 5 ft. stems. A long lasting acquisition of striking appearance. *Postpaid.*

Each 70c 3 for \$1.75 6 for \$3.25

Enchantment. (Pl. Pat. 862)

A mid-century hybrid selection heaped with honors at home and abroad. Stems 3-5 ft. tops ablaze with nasturtium-red flowers in June and July. Very hardy, long lived and free flowering for your own garden "flower show." *Postpaid.*

Each 85c 3 for \$1.95 6 for \$3.45

Royal Gold The Golden Regal Lily

The large exotic, trumpet shaped flowers bloom in June and July, as if gold plated, with a glistening glow, on strong 4-6 ft. spikes. A flower of perfect form. Healthy and hardy needing no special attention or location. *Postpaid.*

Each \$1.25 3 for \$3.25 6 for \$5.85

Kelly's mammoth hardy garden

Peonies *You can depend on*

Once planted they will develop into large plants, blossoming each year with hundreds of blossoms. The gorgeous Peony is one of the outstanding flowers for the garden, and rivals the Rose in popularity. Being extremely hardy, it grows and thrives in any part of the country, requiring the least care, and is free from pests and diseases. There are very few perennials as permanent and dependable as the Peony. The following prices are for strong 3 to 5-eye roots, which will give you pleasing results. *Postpaid.*

Each.....\$1.15 3 for.....\$2.95
6 for\$5.40

Felix Crousse. The best red for gardens. Bright ruby-red color.

Edulis Superba. Dark rose-pink.

Festiva Maxima. White with crimson flecks.

Sarah Bernhardt. Lovely pink variety.

Karl Rosenfield. Delightful deep red.

Bleeding Heart, Bountiful Hybrid

(Pl. Pat. 1198)—*The New Perpetual Flowering Bleeding Heart.* A remarkable hybrid, resembling the Plumy Bleeding Heart (*Dicentra eximia*) but vastly superior. Forms a clump fully 18 inches in diameter of handsome dark blue-green foliage, about 10 inches high. Flowers appear in May with as many as 30 to 40 flower stems on a 2-year plant. Stalks are about 18 to 20 inches tall, topped with fuchsia-red flowers. Blooms in the early autumn as freely as it did in the spring. Grows in either light shade or full sun. *Postpaid.* Each.....\$1.25 3 for.....\$3.35

Dwarf Tangerine

This is a real Tangerine, only a dwarf variety that you can grow as a potted plant just as easily as any house plant. Bears a brilliant orange colored fruit that is good to eat. Beautiful green, glossy leaves. Blossoms have fragrance of orange blossoms. Fun to grow. *Postpaid.*

Each.....\$1.25 2 for.....\$2.25

Hawaii

HAWAII, Pl. Pat. 1833

*warm and wonderful
like a tropical sunset*

Wonderful things are sure to happen when you plant Hawaii. Just picture your garden filled with the warm, tropical loveliness of spectacular coral-orange, gracefully unfolding into the largest, fullest, most exquisite roses you've ever seen. Each one fully 6 inches across. As captivating and colorful as Hawaii itself. Precious plants, so free blooming, so delightfully fragrant, so free from care, and so hardy it's no wonder they're a source of constant delight, creating a sensation for all fortunate enough to see them. *Postpaid.*

Sterling
Silver

STERLING SILVER, Pl. Pat. 1433

an entirely new color

Unlike any rose you've ever seen before. A breathtaking beauty of nature's most cherished hues. As new as tomorrow. A delightfully clear beautiful lavender, incorporating the warmth and elegance of heirloom sterling silver. Perfect pointed buds open into large fully double masterpieces of rose elegance, flooding your garden with a captivating fragrance. Healthy, compact plants with lush foliage, grow vigorously and are exceptionally free blooming. A "must" for gardeners who enjoy the new, the novel, the dramatically different. *Postpaid.*

Plant your roses in good, well fertilized soil. Trim the roots and make holes large enough so the roots can be spread out and the "bud mark" placed at least 2 inches below ground level. Tops should be cut back when planted to 6-8 inches above the ground. Old, established plants remove $\frac{2}{3}$ of the previous years growth, leaving 12-15 inches of cane. Because roses flower only on new wood, pruning and use of fertilizer will insure beautiful blooms.

Picture

Best Selections for Spring Planting

Autumn. A glorious combination of orange-yellow and rose-red. Richly perfumed, one of the best.

Blanche Mallerin. (Pat. 594) Large pure white—noted for long shapely buds. Very fragrant.

Charlotte Armstrong. (Pat. 455) Rose-red beauty that seems to glow. A garden showpiece.

Christopher Stone. Very fragrant, brilliant scarlet, free blooming. One of best bright reds.

Condesa de Sastago. Intriguing, two-toned color coppery-pink inside, golden outside. Very fine.

Countess Vandal. Luscious tones of copper, bronze and pink. A prolific bloomer, with strong stems.

Crimson Glory. (Pat. 105) One of the most popular red roses in America. Fine form and fragrance.

Eclipse. (Pat. 172) Gorgeous long yellow buds open into perfect blossoms. An outstanding rose.

Lowell Thomas. (Pat. 595) Rich, unfading deep golden yellow. Strong stems and good foliage.

Mirandy. (Pat. 632) Immense, fully double flowers of the finest dark red. Excellent for cutting.

Peace. (Pat. 591) A color panorama of charm and grace. Truly the all time champion.

Picture. Richly colored glowing pink. Very fragrant and unusually healthy.

Kellys Climbing Roses

Blaze

(Pl. Pat. No. 10) America's most popular everblooming climber. The big, good looking plant will cover a lot of space and produce thousands of intense, non-fading red blooms. Grow them on walls . . . fences . . . trellises . . . wherever you want "Big" color in a hurry. It will keep your garden alive with burst after burst of fiery scarlet blooms all season. Grows vigorously; hardy, too. *Postpaid.*

each \$1.35 3 for \$3.85

New Dawn

(Pl. Pat. No. 1) Marvelous in the garden . . . ideal for cutting, too. Probably our hardiest, easy to grow climber with pointed buds and double blossoms of precious appleblossom pink. Always attractive and free blooming, filling your garden with delightful fragrance. *Postpaid.*

each \$1.35 3 for \$3.85

Climbing Crimson Glory

(Pl. Pat. No. 736) Luxuriant, vigorous, fast climbing plants covered with an extravaganza of vivid scarlet, beautiful blooms. Very effective. The healthy plants grow 6-7 ft. high and spread nicely, with flowering shoots also reaching out laterally. Excellent for posts, pillars, fences and walls, transforming a bland scene into an exciting panorama of color—quickly and easily. *Postpaid.*

each \$2.75 3 for \$7.20

Climbing Crimson Glory

Gold Rush

A hardy everblooming yellow climbing Rose. Flowers are large, double, high centered; the brightest, cleanest yellow imaginable. Captured sunshine—clean and lovely. Perfectly hardy, big vigorous grower, your everready source of flowers all season long.

Postpaid. each \$1.50 3 for \$3.90

Snowbird

Exquisite dainty white buds and heavy petaled, high centered glistening flowers are perfect in every detail. Easy growing, lavish bloomer contrasting beautifully with other varieties.

Postpaid. each \$1.50 3 for \$3.90

Climbing Peace

(Pl. Pat. 932) Just picture a robust thick mantle of shining green studded with huge 5 inch cream, gold and pink flowers. As lovely as the bush form and you will say it's the best buy in beauty you have ever made.

Rosa Multiflora

*Controls Erosion . . . Provides Wild Life Refuge
Adds Beauty to the Landscape*

Facts About Rosa Multiflora and Its Growth

1. Can be planted 1 foot apart. Its thorns will keep children and animals of all kinds in bounds.
2. Produces dense growth—white blossoms in June—red berries in late summer and fall.
3. Extremely hardy—does well in most all soils.
4. Extensive pruning during the growing season required to keep the hedge small.
5. Grows 8 feet or more in height and 6 to 8 feet in width if not kept trimmed.
6. The red berries will attract birds of all kinds, including pheasants and grouse.
7. Grows 2 to 3 feet in one season.
8. Ideal as a ground cover on steep banks and slopes.
9. Plant just as you would any other shrub.
10. Requires no special care. Not subject to any serious disease or insect attacks.

For a good thick hedge, the plants should be trimmed back to 6 or 8 inches to promote thick growth. You can, therefore, see there is no advantage in planting larger size plants than we offer.

Dwarf Lace Plant

(*Polygonum Reynoutria*). Easy to grow and iron-clad-hardy, establishing itself quickly from underground runners, doing best in full sun or partial shade, growing 6-12 inches tall. In autumn, the crisp apple-green foliage turns a brilliant red, enveloped in clouds of airy pink flower sprays. Plant 18 inches apart for unmatched floral beauty, aflame from August till frost. *Postpaid.*

Pachysandra Terminalis

The most popular of evergreen ground covers. It spreads rapidly, giving a finished look to an underplanting. Since it thrives in the shade, it is especially useful under dense shade trees where grass will not survive. Also good for steep bank where mowing is difficult. Very useful as a combined ground cover and root protector when planted under Rhododendrons, Azaleas, and Laurels. Pachysandra puts the finishing touch to a foundation planting. Plant four or more to one square foot.

Alyssum

Attractive, early flowering perennials, completely covered with masses of bright yellow flowers that blend beautifully with tulips and very desirable for carpeting bare spots. Also invaluable for edging beds, borders and in the rock garden. Only grows 12 inches high with charming green foliage. Very vigorous plants, sure to delight you. *Postpaid.*

Each.....60c 3 for.....\$1.65

Gaillardia

The New Burgundy. Here is a worth-while satiny maroon-orange flower with deeper color on rim and yellow center. This variety blooms all season and gives a lot of satisfaction in every garden. Height about 18-24 in. *Postpaid.*

Each.....60c 3 for.....\$1.65

Shasta Daisy, Alaska

(White). A national favorite developed from the common Daisy into a new flower head measuring about 2 to 3 inches across. These Daisies are pretty, very hardy and permanent garden adornment. *Postpaid.*

Each.....60c 3 for.....\$1.65

Russell Lupine

From England comes this long-stemmed, clustered, Pea-shaped flower in a variety of plain and intermixed colors. Through the patience of the famous hybridizer, Mr. Russell, who spent 25 years of inbreeding Lupines from the world over, this horticultural triumph is available to home gardeners at reasonable prices. Mixed colors. *Postpaid.*

Magnificent Tuberous Rooted Begonias

Kelly's selected imported Belgian Begonias are positively breath-taking. Camellia like blooms measure up to 8 inches across in a wide range of brilliant colors from early July until late fall. The enormous waxy like flowers are a masterpiece of symmetry, the ultimate in classical form, resembling the rose; borne on low growing plants. Plant them in full shade, even where grass won't grow, for banks of showy brilliant color—where clear bright color is needed most. Coming from bulbs you may enjoy them indoors growing in pots on your window sill equally as well. Sure to bloom this summer, the center of attraction, your special joy and delight. Choose these spectacular, exotic, flashy flowers from eight colors.

Crimson, scarlet, pink, orange, white, yellow, copper, salmon.

Postpaid. Top size Bulbs, 1½-2 inches across.

Something New

Hanging Basket Begonias

Their beauty is breath-taking. Flowers are double, Camellia-shaped and six times larger than old-fashioned types.

You can use them in flower boxes, pots or hanging baskets, and you will have living fountains of fabulous flowers all summer long. You will need to place them in sheltered places, away from direct sun and strong wind. They turn barren nooks into gorgeous displays of beauty. You would have a show place on your patio, porch or in your garden. They will hang down like a lavish, blossoming fountain.

Very easy to grow. Bulbs should be planted indoors before March to insure longest possible blooming season. In a few short weeks, you will be rewarded with phenomenal flowers—a hundred or more dazzling blooms—a spectacular showing you and your friends never saw before.

Our bulbs will measure 1½ to 2 inches or more, and we have the following colors to offer. We are sure you will be pleased with them, and with the wonderful display of clear colors. *Postpaid.*

White, Scarlet, Pink, Orange, Yellow, Salmon.

Kelly's Large Flowering

Hardy Garden Phlox

American Legion—Very large flowers of brand new perfect pink. A hardy, never-fail variety with tall, straight stems. The one people point to and you'll be proud to call your own.

Charles Curtis—The most brilliant phlox in cultivation. Large flower heads of sunset-red, are unusually clear and sparkling and never discolor in the sun or fade with age. Conspicuous size and color. Always makes a great show.

Count Zeppelin—Big clusters of pure white flowers with bright crimson eye. They make a real splash of color in the garden. A beautiful variety of great vigor, the finest of its kind.

E. D. Farrington—A giant among phlox. A rich luminous salmon-pink, one of the loveliest colors in summer's floral pageant, bold, substantial foliage and robust in every regard.

60c Each 3 for \$1.65 6 for \$2.95
12 for \$4.75 Postpaid

Phlox are the most universally grown of all flowers. This would not be so if they were not eager to grow in any ordinary garden soil, in full sun or partial shade, in all sorts of climate. They make a colorful show in your garden reaching about 18 to 30 inches tall, and can't be beat as a cut flower. These are all selected, improved varieties producing larger and better colored flowers from early summer until frost.

Eva Forrester—One of the largest flowered of all. Very fine salmon pink with white eye. Large flower trusses on strong stems that are delightful in the garden or in bouquets.

Fuschia—Giant size blooms of glowing fuschia purple-red. Very free blooming with a charm and grace all its own.

Marie Louise—Large, pure white heads like mounds of snow. Perfectly beautiful; a good, healthy grower with fine, clean foliage. Unquestionably the best white.

My Fair Lady—You will enjoy this new beauty. Very large flower heads and individual florets. Color a light warm pink with crimson-rose eye.

Pink Charm—Produces heavily branched flower sprays of soft, clear watermelon pink florets on dwarf dainty stems. Makes a beautiful contrast when planted with other varieties.

Progress—Unusual shade of delicate porcelain blue. A strong rugged variety that makes a real showing.

Purple Heart—Masses of large, deep kingly purple flower heads. Very striking, outstanding variety. Resistant to disease, fine for cutting, beautiful to see.

San Antonio—Splendid perfectly formed clusters of rich ruby-red. Very strong growing, excellent where you want an abundance of warm color and faultless form.

Catawbiense

Maximum

Rhododendrons

You'll be surprised at the growing speed of these Young Aristocrat Rhododendrons. They are small—they soon develop into fine, bushy, evergreen shrubs. You save money: you buy as low as 90c each in quantity. Quickly they grow into fine, bushy specimens, often valued at \$5.00 to \$10.00 each.

Rhododendron Catawbiense—Grows 3-5 ft. tall. Leaves smaller than Maximum. Color of flower varies in shades of pink and rose. Grows in full sun but does best in partial or full shade.

8-12 in.....3 for \$3.00 10 for \$9.50 25 for \$22.50

Rhododendron Maximum—Grows 5-6 ft. tall. Very hardy for full or partial shade. Color of flower varies from pink to white. Large clusters in June and early July.

Broadleaf Evergreens

*Enjoy these luxurious shrubs in your yard
Finest for all year display*

Kalmia (Mountain Laurel)

Now those bare, shady spots can be transformed into places of blooming beauty. Big clusters of flowers, varying from deep rose to pure white, up to 6 inches across, almost completely cover the lush evergreen leathery foliage. Completely hardy, it's evergreen the year around, making a well formed shrub 6-8 ft. tall at maturity.

Azalea Mollis—Imported from Holland

Their flowers are lovely and add so much to any planting. We have imported these from Holland. Large blossoms, blooming in early spring. Fine bushy plants, about a foot tall. They prefer part shade, and do best in a soil mixed half and half with peat moss. The roots are very close to the surface, so a peat moss mulch should be kept around the plants after setting out. Grows to 3 ft. Keep well watered. We offer them in the following colors: *Postpaid.*

Each 2 for
Red, Orange, Yellow.....\$2.50 \$4.75

Ilex Crenata Convexa

A small grower, growing four feet high and three feet across. The leaves are glossy and grow so thick that you cannot see the twigs. It is very hardy and will grow either in alkaline or acid soil, in full sun or shade. For a hedge, plant 1½ feet apart. An evergreen that holds its leaves all winter. This blends well with other evergreens or relieves the bareness of deciduous shrubs when they have no leaves.

Kelly's DAHLIAS *spectacular color, size*

Your Choice of Varieties—Postpaid

Each 60c 3 for \$1.55 10 for \$4.95

Dahlias are easy to grow plants, repaying the least care with loads of Rainbow Colors. Any sunny spot with well drained soil is perfect for these plants of diversified form and blazing beauty. If ordered now will bloom this summer and for years, when winter stored.

The Bishop—Picture perfect plants rarely over 3 ft. with beautiful red flowers on 8 in. stems contrasting with the dark red, almost black foliage. A real gem for arrangements, bouquets, and breathtaking garden beauty.

Yellow Show—Enormous, early blooming yellow, like a giant sunburst ... fully a foot across! Everybody's favorite. Excellent for exhibition, cutting and a real robust grower reaching 5 ft.

The Cardinal—An unusual petaled form of dazzling scarlet fully 10 in. across that will light up your entire garden. Sure to be the most-noticed, most-admired flower you ever planted.

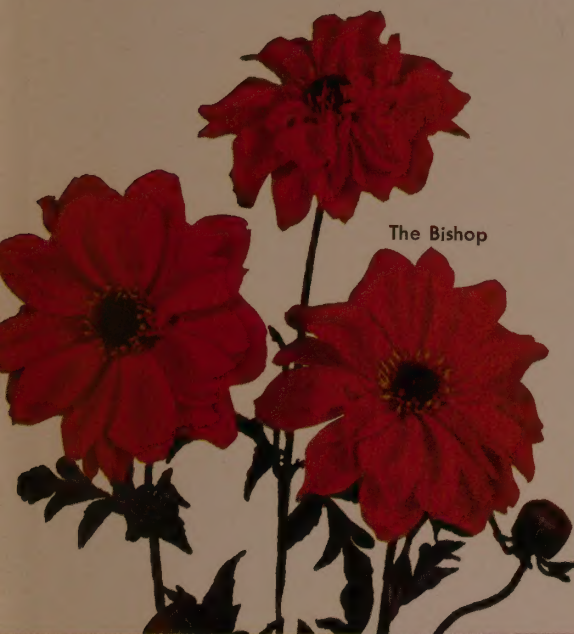

Peggy Ann—Imagine 4 ft. plants smothered with fully double button like flowers in a symphony of orange and gold. A natural for arrangements and bouquets with plenty too for garden beauty.

Duet—The best stocky 4 ft. bicolor with tremendous 12 in. flowers of imposing oriental red petals, tipped white. A sure blooming riot of color for those who want the finest.

Kelly's Magnificent IRIS

Iris are the least demanding yet the most rewarding of all plants with colorful orchid like beauty, without any fuss at all.

Your Choice of Varieties—Postpaid

\$1.00 each 3 for \$2.95 6 for \$5.75

Belle Meade—Very large flowers; charmingly distinctive. A smooth blending of blue and white color tones with good substance and excellent branching habit.

Pink Plume—A lovely translucent pink with fine depth of color and ruffled petals. Nicely branched and best of its shade.

Goldbeater—Well formed, gleaming deep gold that is rich and clear. A good grower and just about the loveliest of any we know.

Party Dress—Large, lovely rose and orchid pink with a touch of ruffling. Exceedingly free flowering over a long period, with a decided orchid-like effect. A real choice plant.

Black Diamond—Lustrous, deep rich velvety purple, almost black. For depth of color, size of blooms and fine form, it tops the list.

Belle Meade

new for 1963 "GENEVA"

everbearing strawberry

A strawberry that will make all other Everbearers obsolete

No matter what variety you've grown before, there is nothing to compare with this remarkable new strawberry. Within 60 days after planting you'll start getting basket after basket of prize-size fruit from plants so vigorous they'll keep right on producing through summer months, right on up to heavy frost. The very best in mouth-watering, honey-luscious, giant red ripe strawberries—long after neighbors plants give up!

FROM EAGER PLANTS MOUTH WATERING DELIGHT

Such vigorous growers, it's best to space 18" apart to allow for full growth and continual outpouring of huge, firm, meaty fruit, chock full of true wild-strawberry flavor. No special acidity or fertilizer needed—tree tough Geneva thrives with regular garden care, exploding with heaping quarts and quarts of plump strawberries, each one a honey-sweet mouthful. Best yet for shortcakes, preserves, jams and jellies.

🍓 **BIGGEST BERRIES EVER!** One makes a mouthful.

🍓 **SHOOTS UP LIKE A STREAK!** Grows like wildfire without pampering or special care.

🍓 **BEST FOR ALL SEASONS BEARING!** Grows basket after basket from mid-June to heavy frost.

🍓 **CROP AFTER CROP!** Really amazing. Berries seem to pop out over night—up to 60 quarts and more from a plot that is blanket size.

🍓 **TRUE WILD STRAWBERRY FLAVOR!** All the honey-sweet flavor of expensive, imported wild strawberries—for pennies a plant.

Another Horticultural Achievement

A tribute to Dr. Slate's 40 years of singular service, in coaxing Mother Nature's secrets, for your enjoyment and gardening pleasure.

We proudly offer Geneva, the startling result of years of horticultural research by Dr. George Slate at the N.Y. State Experiment Station. During the thousands of tests and evaluations under all conditions, Geneva, Dr. Slate's creation, was known only as "N.Y. No. 547." Now that this discovery is being released to the public, it has been named in honor of the Experiment Station where it was created.

Geneva is fabulous—but you don't have to pamper them. They ask only a place in the sun for a continued outpouring all spring . . . summer . . . and fall. Gather basket after basket of firm, meaty berries as sweet as only a strawberry can be, right from your own grounds, any time you want. The glossy green mounds are so pretty you will want to plant them in places where they can be seen.
